Hello Mike and Patty,

The eDiscovery Data results are in and have been converted, at least 5 out of the 6 files. Per Travis' email below, there are 107,332 total email pages, not including attachments in this count.

Rather than me regurgitating Travis' email, kindly read through it and let's plan to discuss in more detail at tomorrow. At this point, it may also be prudent to see whether there are specific Project Files in R1 where these responsive records can be readily available and extracted for the purpose of this FOIA request.

Thank you both and look forward to hearing what times you both are available to meet tomorrow.

Hi Hyacinth,

The results as are are well over 100,000. With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count.

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did.

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease. Because, at this point, I would not know what guidance to provide the requester to narrow the scope. We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull.

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results. However, without further information I'm at a loss on why so many emails were returned in this case.

Based on your email - is it worth even downloading or contacting Mr. Clark to let him know that "as is", it is unmanageable and that he will need to re-scope/narrow his pull?

Kindly let me know. Thank you

Hi Hyacinth,

I'm still converting the last file. It has errored a couple times over the weekend. The other five files saved late last week. However, this pull is massive and has pulled back thousands of emails. I'm shocked that it returned this many emails. I will share what I have - but it will most definitely need to be narrowed down as it is really unmanageable as is.

Good afternoon D2,

Hope all is well with you today. We have a FOIA request that will require an email/e-discovery request of GSA IT.

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request.

There are two separate pulls for this FOIA request. Both pulls are described below as Pull #1 and Pull #2. We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking.

Thanks, Travis.

**Subject:** RE: VAS Realty v. United States, Fed. Cir. No. 21-1962: Motion to Expedite

Steve, Steve:

Along with our opening brief, we intend to file a motion to expedite the appeal, requesting the following schedule:

- VAS' Opening Brief: May 24, 2021
- Defendant-Appellees' Response Briefs: June 14, 2021 (21 days later)
- VAS' Reply Brief: June 23, 2021 (9 days later)
- Oral Argument: Earliest available calendar after parties' filing of Joint Appendix

Can you both let me know if you oppose the motion, and if you intend to file a response?

Thanks,  
Anuj

We consent. As you know the court is not enamored of redactions and there's a word limit.

We're aiming to file our opening brief in the above-captioned appeal later this evening. Contemporaneously, we will be filing a motion for leave to file under seal (FRAP 27 and FCR 27), as VAS' opening brief contains information subject to the Court of Federal Claims' Protective Order. In the motion, we'd like to represent that we will work appellees on agreed-upon redactions, after which VAS will file updated confidential and nonconfidential versions of the brief.

For purposes of complying with FCR 27(a)(2), would you please each let me know your position on this motion?

Hillary and Steve,

We have proposed additional redactions in the attached version of Cape Moraine's Opposition to VAS' motion to stay filed last week. The redactions appear in blue outline on Exhibit 1 only. We have no additional redactions to propose to either exhibit or the brief itself. If you have any questions please let us know.

I will send a separate email seeking confirmation on redactions to our reply filed Friday. We are due to get that in today as well.

Steve, Steve:

Please see attached VAS Realty, LLC's (1) motion for leave to file under seal, (2) confidential opening brief, and (3) motion to expedite. Also attached for your records are miscellaneous administrative filings submitted today: entries of appearance, docketing statement, and certificate of interest.

As set forth in the motion for leave to file under seal, VAS has highlighted a proposed redaction on page 11 of the brief. Please advise if you agree/disagree with this proposed redaction (we are amenable to cutting it down), or would like to suggest additional redactions prior to this Friday, May 28<sup>th</sup>, when VAS will file finalized confidential and non-confidential versions of the brief.

We will circulate stamped, confidential volumes of the joint appendix in short order. Please advise if you cannot receive electronic documents via FTP, and in that event, what alternate means will enable you to receive the transfer.

Thanks,  
Anuj

**PROTECTED INFORMATION TO BE DISCLOSED ONLY IN ACCORDANCE WITH U.S. COURT OF FEDERAL CLAIMS PROTECTIVE ORDER**

Steve, Steve:

Please see attached VAS Realty, LLC's (1) motion for leave to file under seal, (2) confidential opening brief, and (3) motion to expedite. Also attached for your records are miscellaneous administrative filings submitted today: entries of appearance, docketing statement, and certificate of interest.

As set forth in the motion for leave to file under seal, VAS has highlighted a proposed redaction on page 11 of the brief. Please advise if you agree/disagree with this proposed redaction (we are amenable to cutting it down), or would like to suggest additional redactions prior to this Friday, May 28<sup>th</sup>, when VAS will file finalized confidential and non-confidential versions of the brief.

We will circulate stamped, confidential volumes of the joint appendix in short order. Please advise if you cannot receive electronic documents via FTP, and in that event, what alternate means will enable you to receive the transfer.

Thanks,  
Anuj

Hello Duane/Travis

As a follow up to the Staff Meeting I will be away next week (out of state) tending to a family matter and scheduled to return to the office on Friday July 23rd

During this time should any new FOIAs under my assignment come in please Task them to the following FOIA POC's for processing:

- PBS - Mike Mitchell (via Email w FOIA Casefile)
- OCIA - Erin Mewhirter (via Email w FOIA Casefile)
- PTT John Peters and Kaitlyn Schneider (via Email w FOIA Casefile)
- R1 PBS - Patricia Pierce
- R1 FAS - Carlene Noelsaint
- R2 PBS - Jennifer Diala-Wu
- R2 FAS - Dean Zimmer
- R5 - Arah Gibson (she is backfilling for Megan Brown who is on leave through July 30th)

Here are some pending issues that may/may not hit next week yet worth mentioning in case:

**2021-001104 Clark (R1)** - Pending Fee Package on 374 pgs

The SME has the revised eDiscovery Pull results and has been advised to prepare the Fee Package by July 21st

**2020-000643 (b) (6) (PBS OFM)** - Matthew Harbeson continues to work through the revisions to finalize this aged FOIA  
According to him PBS Counsel is reviewing the final package

**2021-001322 (b) (6) (PBS PT)** - Recently tasked to Page Doan and have not received any feedback This Office usually pushes back on responding or prepares a full denial She may respond to this new task

**2021-000725 (b) (6) (PBS Disposal)** - In Litigation Couple of things going on here:

- 1 Brian Kee continues to review sort and propose redactions on the 2nd Interim Release (Master Attachments #2) and Emails
- 2 PBRB Courtney Johnson working their Consultation

**2021-000904 (b) (6)** - Arah Gibson is due to respond to this R5 inquiry Travis is cc'd on this as is Duane Smith

Thank you both so much for keeping things moving and although I am away I will be checking my emails periodically throughout the day

Much appreciated

Hi Travis

Please see below the proposed eDiscovery Pull for the **Clark FOIA GSA-2021-001104**. For your reference, I have attached the response to the Clarification in addition to his FOIA Request.

I believe, based on his FOIA, that the keywords can be narrowed down some. We can discuss it when you have time.  
Thank you, Travis

Hello email team,

Thanks again email team for your help on this FOIA request e-discovery. Working with Region 1 employees and re-communicating with the FOIA requester again based on the results of the first pull, we need to re-scope this FOIA request to the following criteria below. This is a much more narrow scope with a few additional pin-pointed terms to try to get what the requester is searching for in this FOIA request.

Thank you, Travis

Hello Meaghan

Please see the email inquiry from Mr Clark

Travis and I spoke earlier about the Clark FOIAs and think it is best that Region 1 either respond directly to him or provide us with the verbiage to send him since the 4 FOIAs are currently in open status with Region 1 - several are overdue as well

Our main concern is that Mr Clark remitted full payment in the amount of \$4 508 for GSA FOIA 2021-001104 and he is persistent on receiving status on this
At this time and to avoid an Appeal R1 needs to have the 1st Interim Release to him by mid October

The other FOIAs are as follows:

R1	2021-001104	Clark	Copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendment No's. 14 & 15 of Lease LRI04549
R1	2021-001409	Clark	Communications pertaining to PBS Lease LRI00279, in Warwick, Rhode Island. Keywords: Warwick, Cape Moraine, 7RI2043 Timeframe: 5/1/19 – 7/31/21, Mailboxes: bruce.callard@gsa.gov
R1	2021-001446	Clark	1) Copy of executed Lease Amendment No. 15 between VAS Realty, LLC 2) Copy of executed Lease Amendment No. 16 between VAS Realty, LLC
R1	2021-001656	Clark	QA's between Calendar Year 2018 through Calendar Year 2021 for GSA Lease LRI00279.

Thank you for addressing this matter

The files are far less than the 91 000 pages from the prior eDiscovery pull - the exact amount is not determined at this time

To answer your question there is no "approval" of the GSA Fee Package Once it is sent to you you either remit payment within the 10-day timeframe or choose not to This option is stated in the Fee Letter

Please be patient until you receive your Fee Package from the MA Office

Hi Mike,

I am following up on a conversation I had with Hyacinth regarding the fee package for Mr. Clark based on the 374 page e-discovery pull. I have attached for your convenience the fee worksheet and fee letter for your convenience. I have upcoming leave so if you could please fill out the documents and forward back to me by Tuesday, July 20 it would be greatly appreciated. Please let me know if you have any questions.

Thank you,

All,

We are trying to figure out what went wrong with our eDiscovery Pull for the FOIA request GSA-2021-001104. The attached file from the pull shows two things: first that the requested dates were supposed to be only through May 31, 2021, and second that it pulled emails from later dates after the requested search window.

This is a high profile FOIA request for GSA and senior GSA leadership has made inquiries regarding the status.

According to the initial review done by one of the SMEs over 80% of the records in one of the files non-responsive due to the date. Is there any way that we can go back and look to see what caused this problem, whether it was a miscommunication, data entry error, or the eDiscovery tools provided faulty results? Or possibly there was another cause?

I am happy to discuss the matter as needed and appreciate any insight you can provide.

Respectfully,

Jeremy

Hello Mike and Patty

The eDiscovery Data results are in and have been converted at least 5 out of the 6 files
Per Travis' email below there are 107 332 total email pages not including attachments in this count

Rather than me regurgitating Travis' email kindly read through it and let's plan to discuss in more detail at tomorrow At this point it may also be prudent to see whether there are specific Project Files in R1 where these responsive records can be readily available and extracted for the purpose of this FOIA request

Thank you both and look forward to hearing what times you both are available to meet tomorrow

Hi Hyacinth,

The results as are are well over 100,000 With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease Because, at this point, I would not know what guidance to provide the requester to narrow the scope We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results However, without further information I'm at a loss on why so many emails were returned in this case

Based on your email - is it worth even downloading or contacting Mr Clark to let him know that "as is" it is unmanageable and that he will need to re-scope/narrow his pull?

Hi Hyacinth,

I'm still converting the last file It has errored a couple times over the weekend The other five files saved late last week However, this pull is massive and has pulled back thousands of emails I'm shocked that it returned this many emails I will share what I have - but it will most definitely need to be narrowed down as it is really unmanageable as is

Good afternoon D2,

Hope all is well with you today We have a FOIA request that will require an email/e-discovery request of GSA IT

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request

There are two separate pulls for this FOIA request Both pulls are described below as Pull #1 and Pull #2 We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking

Good morning Hyacinth,

I am following up on our conversation from Friday I sent Mike Strobel an email to get in touch with you regarding the e-discovery pull for Mr Clark's FOIA 2021-001104 Mike is out of the office until June 18 and has informed me that if this FOIA is assigned to him, he is requesting a minimum 2 week extension as he doesn't know the scope of documents that are requested I assume that this FOIA is assigned to Mike but I cannot confirm it until June 9 which is when Steve Smith will be back in the office

We are all set to connect via Googlemeet at 10 tomorrow for a primer on FOIA reviews. Attending will be LCO Mike Strobel and his two colleagues, Patti Todesca and Robert Montminy. Meaghan and I will also be there. A third "reviewer", Jason Perez, is in training tomorrow and Meaghan will coach him separately.

In our 4 p.m. R1 team meeting today regarding document review in response to the above request, an issue emerged regarding dates of the documents received for review.

The agreed dates for Pull #1 of this FOIA are the 6 months starting Feb. 1, 2019 and ending July 31, 2019 (the "Pull 1 Dates").

The agreed dates for Pull #2 of this FOIA are the 6 months starting December 1, 2020 and ending May 31, 2021 (the "Pull 2 Dates").

There are 16 months between the Pull 1 Dates and the Pull 2 Dates (Aug. 1, 2019 through Nov. 30, 2020). Let's call that the "Non-Responsive Time Period." It appears the documents sent to R1 for review include some (could be many) from the Non-Responsive Time Period. For example, when we spoke today I described email between me and personnel in the A Suite regarding the IG Report and how to deal with that. I was concerned about protecting that email. All of that email would have been exchanged during the Non-Responsive Time Period. It should not be included in our review. The review should be only of email from the Pull 1 or Pull 2 time periods, which total 12 months. If there are an additional 16 months of documents included in the collection to be reviewed, we need to figure out a way to eliminate those - preferably electronically. To do so by hand would increase the workload exponentially. Let's discuss this in the morning.

Thanks

Nancy

Good Morning R1 Team,

The previous eDiscovery results for Mr. JOhn Clark's FOIA GSA-2021-001104 were voluminous, and turned out to be overly burdensome for us to review and redact.

As such we met with John Clark to share this information and to coordinate a narrowed scope and eDiscovery parameters. These results are shared with you in the folder below.

The next steps are that R1 prepare the Fee Package by following the steps below:

1. Review the 5 .pdf Files labeled "SCRUBBED"

2. Review the 5 Folders containing the Attachments from each of the Email Accounts/Pulls. There will be Word Docs that may need to be converted to .pdfs prior to proposing redactions, depending whether they are releasable.

3. Based on the Total Number of Pages from the Scrubbed .pdfs and the Attachments, kindly prepare a Fee Package using current LG Templates and the calculation below:

a. Search Costs: Total # of Pages/200 = # Hours

# Hours x \$49 = Total Search

b. Review Costs: Total # of Pages/30 = Hours

# Hours x \$49 = Total Review

c. Total Cost = Search + Review

4. Send the Fee Package to me and I will release this to Mr. Clark for payment and toll the FOIA for 10-Business Days.

We do anticipate payment from Mr. Clark as soon as he receives this Package, so upon release, please begin reviewing & proposing the redactions. Please do not APPLY the redactions.

Most importantly, reach out to me should you have any questions.

Thank you all.

~Hyacin h

Hello Courtney, Carey and Jason,

Hope this email finds you well. My name is Hyacin h Perrault and I am one of the Lead FOIA Analysts in DC and am currently managing all the John Clark FOIAs for Region 1.

As such, I have uploaded all 6 Responsive Files to his GSA FOIA (GSA-2021-001104), and have proposed Exemption 6 redactions throughout. At this time however, we are asking that you review these files and propose Exemption 4 and Exemption 5 redactions using Adobe Acrobat DC.

If you are unfamiliar with the proposing redactions, please let me know, and I will schedule a Training Session that is convenient for all to attend.

Should you have further any questions, please reach out to me at (202) 329-9361. I am also available via GChat.

Thank you,  
Hyacinth.

Hello Hyacinth, I was able to get these files saved and over to PDF's this weekend. I did a cursory review and the pull seemed to work very well. Please also take a review and see what you think. If all looks well when you review on Monday, you may involve Cassie and Jeremy next week to coordinate Region 1 involvement.

Thank you, and I know this has not been an easy or smooth process, but I think we have it in good shape now. If something looks out of place or off with the pull, please let me know and I will assist and see what we need to do.

I hope you are having a good weekend!

travis.lewis@gsa.gov has invited you to **contribute to** the following shared folder:

Hi Hyacinth,

Sharing this folder of responsive results with you as mentioned in my last email. It will take a few hours to upload. However, this pull brought back way more results than I could have imagined based on looking at it. There will eventually be six files added to this folder.

The "revised search" has the same flaw the others had - it searches a universe only defined by dates and names. The universe to be searched is the one inquired about, i.e., LAs Nos 14 and 15 of Lease No. LRI04549 located at 1 International Way, Warwick Rhode Island. The search has to be targeted to the names (mailboxes) and dates as they appear within the universe of LAs 14 and 15 of Lease No. RI04549. Of the 42 pages of my email that you sent me (and thanks so much for numbering those emails and paginating that send), 6 emails comprising 14 pages are responsive. The rest are totally unresponsive. They address:

The FBI lease in Chelsea Ma  
A breach of claim regarding a different lease  
A change of ownership regarding a different lease  
A congrats to me from another GSA attorney on winning the VAS GAO protest request for reconsideration

I am not real clear on just how the responding to a FOIA process works, but it looks like Travis is in charge of framing these electronic searches. He seems not to understand how to do that so they seek only the information requested. If they cannot frame these searches appropriately is there some way counsel can "assist" in doing that? What this episode documents is that an enormous amount of attorney time (primarily yours, but also mine and Meaghan's) has been consumed by trying to get this search to address the request made. What can we (collectively) do to help that happen and avoid this in the future?

Hello email team,

Thanks again email team for your help on this FOIA request e-discovery. Working with Region 1 employees and re-communicating with the FOIA requester again based on the results of the first pull, we need to re-scope this FOIA request to the following criteria below. This is a much more narrow scope with a few additional pin-pointed terms to try to get what the requester is searching for in this FOIA request.

Thank you, Travis

Good morning Hyacinth, All FOIA's are being worked on by R1 Leasing I have 3 folks dedicated to the 01104 response We will have a release of as many pages as we can get through for the October release Reviewing 2400 pages is very time consuming This is FY end and we are dedicating as much resources as possible to fulfilling our obligations to the FOIA statutes I am still concerned that the same entity submits multiple separate FOIA's within a short period of time all related to the same project and geographic location This requires a duplication of the administrative aspects required by FOIA

That being said, we will continue working to redact files and will adhere to the agreement of a rolling release of documents as they are redacted and approved by legal

Thanks for your understanding

Hello Meaghan

Please see the email inquiry from Mr Clark

Travis and I spoke earlier about the Clark FOIAs and think it is best that Region 1 either respond directly to him or provide us with the verbiage to send him since the 4 FOIAs are currently in open status with Region 1 - several are overdue as well

Our main concern is that Mr Clark remitted full payment in the amount of \$4 508 for GSA FOIA 2021-001104 and he is persistent on receiving status on this  
At this time and to avoid an Appeal R1 needs to have the 1st Interim Release to him by mid October

The other FOIAs are as follows:

|    |             |       |                                                                                                                                                                                                                                 |

Good evening Hyacinth,

Based on our recent phone conversation I don't understand how the exact amount of files are still undetermined despite the eDiscovery pull has already been completed by the central FOIA office? Thank you for your insight

Mr Clark

The files are far less than the 91 000 pages from the prior eDiscovery pull - the exact amount is not determined at this time

To answer your question there is no "approval" of the GSA Fee Package Once it is sent to you you either remit payment within the 10-day timeframe or choose not to This option is stated in the Fee Letter

Please be patient until you receive your Fee Package from the MA Office

Hi Mike - Good Evening

Using the 2,400 pages from the latest eDiscovery Pull that Travis and I shared with you on August 16th, I have gone ahead and calculated the Search and Review Fees for you to expedite this package for processing for R1 Concurrence, etc.

Using the Calculation we provided you on the August 16th email, please see below:

**Search Costs:** 2,400 pages / 200 pages per hour = 12 Hours x \$49 per Hour = \$576.00 Total Search Cost  
**Review Costs:** 2,400 pages / 30 pages per hour = 80 Hours x \$49 per Hour = \$3,920 Total Review Cost  
  
**Grand Total = \$576 + \$3,920 = \$4,496.00**

Using these calculations, we are asking that you please use the attached Templates and prepare the Fee Package and send this back so Travis can sign the letter and we can release it to Clark on August 31st.

Thank you so much for helping to expedite this.

Hi again Travis

Can we possibly re-submit this eDiscovery Pull today with the addition of the 2 words/phrases: "lease amendment 14" or "lease amendment 15"?

The new Keywords would then be the following:

**Keywords:**  
"lease amendment 14"  
"lease amendment 15"  
"VAS"  
"LRI04549"  
"Tom McNaughton"  
"Scola"  
"Tom5688@verizon.net"

Meaghan LeClerc believes that by adding these phrases will narrow down the results from what we currently have  
Please let me know and thank you - in the interim Mr. Clark has reached out seeking a status update on his FOIA request

Thank you

Hyacinth

As we discussed, my understanding is that the FOIA request is seeking copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendments No. 14 and Lease Amendment No. 15 of Lease LRI04549. It doesn't appear to me that the eDiscovery pull focused on words like "amendment" or "lease amendment" or "lease amendment 14" or "lease amendment 15." Perhaps you can narrow the search by searching "lease amendment 14" and "lease amendment 15."

Hi Hyacinth,

The results as are well over 100,000 With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease Because, at this point, I would not know what guidance to provide the requester to narrow the scope We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results However, without further information I'm at a loss on why so many emails were returned in this case

Good afternoon D2,

Hope all is well with you today We have a FOIA request that will require an email/e-discovery request of GSA IT

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request

There are two separate pulls for this FOIA request Both pulls are described below as Pull #1 and Pull #2 We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking

Hyacinth
As we discussed, my understanding is that the FOIA request is seeking copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendments No 14 and Lease Amendment No 15 of Lease LRI04549 It doesn't appear to me that the ediscovery pull focused on words like "amendment" or "lease amendment" or "lease amendment 14" or "lease amendment 15 " Perhaps you can narrow the search by searching "lease amendment 14" and "lease amendment 15 "

The eDiscovery Data results are in and have been converted at least 5 out of the 6 files
Per Travis' email below there are 107 332 total email pages not including attachments in this count

Rather than me regurgitating Travis' email kindly read through it and let's plan to discuss in more detail at tomorrow At this point it may also be prudent to see whether there are specific Project Files in R1 where these responsive records can be readily available and extracted for the purpose of this FOIA request

Thank you both and look forward to hearing what times you both are available to meet tomorrow

Hi Hyacinth,

The results as are well over 100,000 With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease Because, at this point, I would not know what guidance to provide the requester to narrow the scope We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results However, without further information I'm at a loss on why so many emails were returned in this case

Good morning,

Thank you for the clarification however the date range you provided is inconsistent with my actual, prior request. You state in your email below the timeframe of my request is:

Timeframe:

July 10, 2019 through July 31, 2021

However per the copy of my attached request the timeframes I requested were:

2/1/19 - 7/31/19 and 12/1/20 - 5/31/21

I have no problem with you expanding the timeframe beyond my original request and I will pay for the additional fees associated with that expansion of timeline, but it absolutely must go back to my original start date of 2/1/19 and not 7/10/19.

Thank you, any questions feel free to contact me.

Kind regards,

Hi Travis,

Not sure whether you forwarded this to me (using phone to respond)

Clark wants specific questions answered and it's apparent he does not fully understand our process, but I have explained in my discussions with him

Hopefully this can be resolved

Good morning,

As part of my request for clarification(s) response, please also have the subject matter expert answer the following questions:

- 1) Who is responsible for altering the timelines in the Fee Assurance letter from my original FOIA request? Was this a clerical error?
- 2) There is a conflict of interest present in your selection of the Region 1 PBS GSA representative - Mike Strobel - handling my request / data collection as he, individually, is explicitly named in my FOIA request

Please respond with the requested clarification no later than 8/2/21 so that I can retain my right(s) to pay and receive the information I requested and am entitled to. Thank you

Good morning,

Thank you for the clarification however the date range you provided is inconsistent with my actual, prior request. You state in your email below the timeframe of my request is:

Timeframe:

July 10, 2019 through July 31, 2021

However per the copy of my attached request the timeframes I requested were:

2/1/19 - 7/31/19 and 12/1/20 - 5/31/21

I have no problem with you expanding the timeframe beyond my original request and I will pay for the additional filed associated with that expansion of timeline, but it absolutely must go back to my original start date of 2/1/19 and not 7/10/19.

Thank you, any questions feel free to contact me.

Hi Travis,

On Monday, can you and I plan on talking with Clark about this?

I did speak with him regarding the new and narrowed scope for the revised parameters, inclusive if the date range which reflected the dates of the Amendments (14 & 15) He was emenable; however, I do believe no he has forgotten

Thank you and maybe if we both speak with him, he can better understand

Have a great weekend I'm off no, heading to get my prescription

Hi Hyacinth,

I reviewed it over and it looked accurate to me Duane will be sending it out

What caught your eye as inaccurate? You directly work on these more than I do?

Hi Travis

Please read the email below - it is regarding the 2021-001104 Clark FOIA and the proposed interim releases that Cassie has been working on

There are a few concerns in the email below from Nancy that perhaps you can circle back with Cassie to fill her in prior to the meeting tomorrow at 10am with R1 Counsel and a few of their SME's

We are all set to connect via Googlemeet at 10 tomorrow for a primer on FOIA reviews. Attending will be LCO Mike Strobel and his two colleagues, Patti Todesca and Robert Montminy. Meaghan and I will also be there. A third "reviewer", Jason Perez, is in training tomorrow and Meaghan will coach him separately.

In our 4 p.m. R1 team meeting today regarding document review in response to the above request an issue emerged regarding dates of the documents received for review.

The agreed dates for Pull #1 of this FOIA are the 6 months starting Feb. 1, 2019 and ending July 31, 2019 (the "Pull 1 Dates").

The agreed dates for Pull #2 of this FOIA are the 6 months starting December 1, 2020 and ending May 31, 2021 (the "Pull 2 Dates").

There are 16 months between the Pull 1 Dates and the Pull 2 Dates (Aug. 1, 2019 through Nov. 30, 2020). Let's call that the "Non-Responsive Time Period." It appears the documents sent to R1 for review include some (could be many) from the Non-Responsive Time Period. For example, when we spoke today I described email between me and personnel in the A Suite regarding the IG Report and how to deal with that. I was concerned about protecting that email. All of that email would have been exchanged during the Non-Responsive Time Period. It should not be included in our review. The review should be only of email from the Pull 1 or Pull 2 time periods, which total 12 mos. If there are an additional 16 months of documents included in the collection to be reviewed, we need to figure out a way to eliminate those - preferably electronically. To do so by hand would increase the workload exponentially. Let's discuss this in the morning.

Thanks

Nancy

Hello Travis,
For your information, please see below

I did provide Clark an interim response to his status inquiry, however, no specifics I believe I bcc'd you

I'm uncomfortable providing Clark with a date until OGC (Jeremy or Seth) reviews the R1 work product

Let me know what you think Once we land at destination, I can access Folder and share with Jeremy / Seth or whomever needs access

Hi Matt

We divided up the pages that were in the shared folder There were about 300 or so pages total in the folder We may be able to get all of it completed by next Friday

We have set up a weekly check in meeting every Friday so we can confirm by tomorrow

Also we had a few questions that you may be able to help with

- 1 Will there be a weekly deadline and/or expected turnaround time?
- 2 Is there a date when this FOIA will need to be complete?
- 3 How many documents can we expect?

Good afternoon Seth/Travis,

Thank you for the follow up Seth. On the topic of FOIA Request # GSA-2021-001104, the results of which I received yesterday, I have a question I'm hoping could be answered/resolved without the need to proceed with a formal appeal of the information that was provided.

The request for documentation contemplates both LA #14 and LA #15. I only received results associated with LA #14.

Are similar pull results forthcoming for LA #15? I've attached LA #15 for your reference which was provided to me via FOIA Request # 001446. Thank you for your time.

Kind regards,

Thank you for sharing this with me
I have gone ahead and taken a preliminary download of the files and you are correct -this was a far better pull These were the results I came up with:

Keefe Murray - Pull 1: 3 Pages - 3 Pages of Attachments
Mike Strobel - Pull 1: 1 294 Pages - **30 Attachments**
Nancy OConnell - Pull 1: 57 Pages - **13 Attachments**

Mike Strobel - Pull 2: 164 Pages - **37 Attachments**
Nancy OConnell - Pull 2: 769 Pages - **152 Attachments**

So looking forward these Attachments need to be converted to Page Counts then I will share the entire pull with R1 for them to prepare a Fee Package

Hello Courtney, Carey and Jason,

Hope this email finds you well. My name is Hyacinth Perrault and I am one of the Lead FOIA Analysts in DC and am currently managing all the John Clark FOIAs for Region 1.

As such, I have uploaded all 6 Responsive Files to his GSA FOIA (GSA-2021-001104), and have proposed Exemption 6 redactions throughout. At his time however, we are asking that you review these files and propose Exemption 4 and Exemption 5 redactions using Adobe Acrobat DC.

If you are unfamiliar with the proposing redactions, please let me know, and I will schedule a Training Session that is convenient for all to attend.

Should you have further any questions, please reach out to me at (202) 329-9361. I am also available via GChat.

Thank you,
Hyacinth.

It appears that we have Adobe but do not know if it works One of the team has had to reach out to IT which is stating that they haven't completed the final push yet that will allow her to open the software I don't know what that means

Mike, Meaghan, Nancy,

Our re-pulls have been completed. Attached please find the files for FOIA 2021-001004. Nancy, including you because many of these are your emails and most of those are covered by attorney-client privilege.

Hyacinth has done most of the b(6). This will be a heavy lift on (b)(5) by Mike's team. Mike, do you have Adobe yet? There are additional tips and tricks that I can go over, and I would like to show your team how to redact an attorney-client privileged document.

Best,
Cassie

- 1) What exactly do we need to do to fix this particular matter? You recommend that the team "re-scrub" the files given what we saw in the first folder Is doing another (better) search an option? Can't we search by date range (that seems to be the biggest problem identified so far)? And if we do run another search, we should do some due diligence beforehand to determine if the previous search yielded any other extraneous documents We need to move on this ASAP because we're now even more behind
- 2) Next issue would be whether we have a more systemic problem here How did we send folks a folder where at least 86% of the documents were non-responsive? Is it a system/IT problem or is it a human mistake? As we put pressure on the SMEs and regional attorneys to pull their weight, we need to be extremely careful that we are giving them the tools they need and aren't wasting their time It looks like here, even though the documents were outside of the date range, the reviewer still went to the trouble of making a chart That's a big time suck
- 3) Finally, let me know if I need to do any outreach to the region to explain what happened Again, mistakes happen At the same time, it hurts our credibility if we are missing the mark at an 86% rate, even if it only happened one time

Thanks Let me know how I can help get this resolved

"Please see attached FOIA Request dated 5/25/21 "

After careful review of your request, we have determined that your request is too broad in scope and does not specifically identify the records which you are seeking The parameter of your request is broad to the point that any search conducted using them may result in thousands of potentially responsive documents

The Freedom of Information Act (FOIA) provides authority to Federal Agencies to release documents that are specifically identified by the requester It does not require an Agency to do an all-encompassing search of all records in order to respond to requests, create new records, answer questions posed by requesters, or attempt to interpret a request that does not identify records

The Office managing your FOIA needs additional information in order to proceed with your FOIA Please describe the record you are seeking with as much information as possible to ensure that our search can locate them with a reasonable amount of effort Whenever possible, a request should include specific information about each records sought, such as the date, title or name, author, recipients, and subject matter of the records, if you know, or the GSA component or office you believe created and/or controls the record

The below Template should assist you in submitting the Data Pull that is required for your FOIA Request; please be as specific and as narrow as possible, keeping in mind that GSA is a centralized federal government agency:

- 1 Keywords: This would be the name of the Individual/Title / Subject we are Searching-
i e First Name, Last name, Title, Subject
- 2 GSA component or office you believe created and/or controls the record
i e Office of Congressional and Intergovernmental Affairs (OCIA)
- 3 Timeframe: Insert specific Date Range (from & to)
- 4 Mailboxes: Insert specific mailbox addresses (include "@" symbol) These are the Mailboxes that the Information will be searched & retrieved
i e First Name Last Name@Company/Govt Email Address

Please resubmit your request containing a reasonable description of the records you are seeking Upon receipt of a perfected request, you will be advised as to the status of your request

Additionally, there may be FOIA Fees to search and review the information retrieved from your email data pull request since email data pulls will oftentimes retrieve thousands of pages We will have more information for you once the data pull as been conducted

If we do not receive an amended request from you within 10 business days from the date of this letter (June 22, 2021), we will assume you are no longer interested in the FOIA request and will consider your request withdrawn Please be advised that this action is not a denial of your request and will not preclude you from filing other request in the future

Hyacinth
I am finding only 217 pages here I thought the number of pages were higher Before I can provide a cost estimate for the FOIA response
I have given a quick and dirty scan of the document and have had to refer questions to Meaghan LeClerc as Counsel:
1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

Additionally, there are multiple redundancies: Page 8 is the same as page 59 and 105 There are entire sections that are repetitive Is this an electronic glitch?
There are redundant email communications between you and Travis and Duane as well How are these to be handled?
Lastly, there are email communications about other FOIA's Are these releasable?

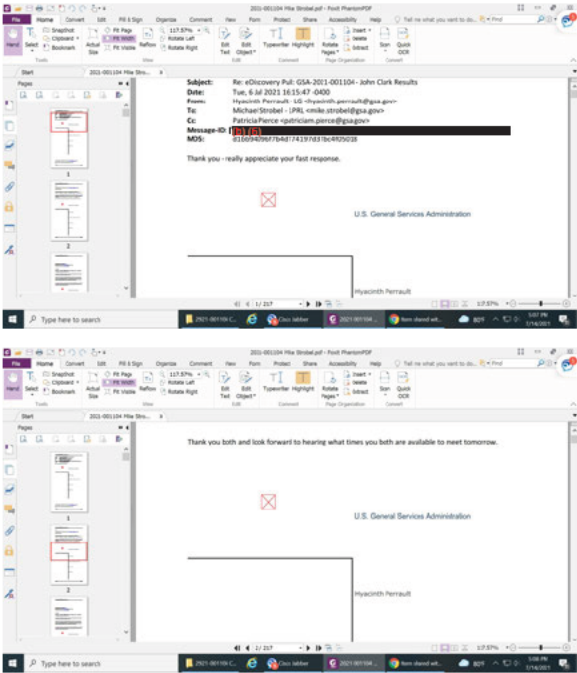

I will not be available from 8/5 through 8/20 as I am getting my darling daughter off to college Will need to take this into consideration in the response to the requester

Hello Patty/Mike,

Please see the shared folder below identifying the new scoped out results of the Clark FOIA. Travis and I worked with Meaghan LeClerc over the past few days to gather the parameters.

Between the two folders, there is a total of 374 pages. Kindly scan them and prepare the Fee Package for Mr. Clark as he is expecting this.

Should you have any questions, please reach out to me tomorrow.
Thank you both.

Well done sir I will apply your recommendations
I am recognizing that there are strings of email but the ones that caught my eye were the emails between you, Duane and Hyacinth They appear twice, perhaps three times and that did not make sense to me Counsel Meghan LeClerc has provided direction and the Exemption citation for emails between Counsel and Responder

Hello Mike,

Thank you for your follow up on this FOIA request and the related e-discovery results I have read through your feedback and questions, both from your Friday afternoon email to Hyacinth and the one today for Duane and I I'm glad to assist you here and will try to answer all of your questions as best I can Please let me know if I missed anything, or if we need to jump on a call sometime tomorrow, that will be fine with me

As for the total page numbers of emails, yes, there are 157 email pages in the Nancy O'connell file and 217 email pages in the Mike Strobel file If you recall - after we did the first email pull that brought back Gig's and Gigs of information (well over 10,000 total email pages), we worked to narrow the scope further and did a re-pull with GSA IT This newly revised pull brought back much fewer pages and appears to be much more on the topic to which the requester is actually looking for

As for the questions you referred over to Meaghan, as for OGC communications and attorney/client communications The general answer on these two questions you have regarding email conversations with attorneys - is that it depends on the content of the emails and what is being discussed as to whether or not these communications are protected However, in general, if and when you are asking an attorney for advice or counsel or their legal opinion, your emails and the attorney responses and suggestions can all be withheld under b(5) as attorney/client privilege However, we will need to evaluate each conversation to determine these specific answers to your questions below:

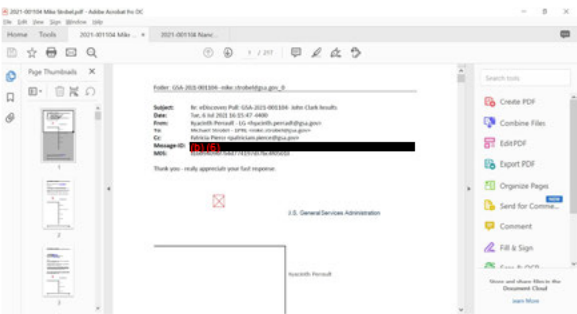

- 1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
- 2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

For the emails that appear to be redundant emails - these are email chains - so if someone responds/forwards and in some cases Cc's additional folks, on an email you will see this new email chain and as an official new record It is not an electronic glitch - just a bi-product of the e-discovery process In this case we can evaluate each of the email chains and just keep the most recent or most expansive email chains for the responsive production for the FOIA request

For the emails about working on or processing the FOIA request and the subsequent emails around the ediscovery pull - all of these emails are not responsive and can be removed from the FOIA request responsive documents production

For your question regarding the attachments - The attachments are within the PDF files This can be a little confusing as you start out in the PDF files I am going to try to explain it in an email - but will be glad to walk you through it tomorrow on a video call if needed

As you open the PDF file, you will see the normal view as follows:

As you view this page, on the far left of the page - you will see a paperclip icon next to the small page tabs If you click this paperclip icon you will see the attachments fill in on the left side of the page (the files will be in their native format)

Once the paper clip is clicked on, the screen will look like below, and you will be able to access the attachments:

At that point they can be evaluated and we can save the ones that are responsive to the FOIA request. If there are files that are not responsive or duplicative, we can eventually delete those from the FOIA response production.

I hope that my response here has been helpful and again, I will be glad to chat with you tomorrow if needed.

Thanks, Travis

I am finding only 217 pages here. I thought the number of pages were higher. Before I can provide a cost estimate for the FOIA response, I have given a quick and dirty scan of the document and have had to refer questions to Meaghan LeClerc as Counsel:
1. Under FOIA, are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
2. Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

Good morning,

Hyacinth - thank you very much for your time earlier today discussing my FOIA Request #: GSA-2021-001104 It was a very productive conversation and I appreciate your time and the clarifications you provided

As a follow up, I require adjustments to the overall timeline of my search criteria As we discussed Hyacinth the timeline of the current data pull reflects the period between 7/10/19 - 7/31/21 However this timeline is problematic as the records I am seeking also pre-date the signing of a particular GSA Lease document (Lease Amendment No 14) which was executed on 7/10/19

As a result, my requested adjustment for the narrowed keyword criteria/data pull timeline is the following:

2/1/19 - 7/31/21

I understand the fee structure may change as part of this request If you have any questions please dont hesitate to contact me

Kind regards,

Good morning,

Hyacinth - thank you very much for your time earlier today discussing my FOIA Request #: GSA-2021-001104. It was a very productive conversation and I appreciate your time and the clarifications you provided.

As a follow up, I require adjustments to the overall timeline of my search criteria. As we discussed Hyacinth the timeline of the current data pull reflects the period between 7/10/19 - 7/31/21. However this timeline is problematic as the records I am seeking also pre-date the signing of a particular GSA Lease document (Lease

Amendment No 14) which was executed on 7/10/19

As a result, my requested adjustment for the narrowed keyword criteria/data pull timeline is the following:

2/1/19 - 7/31/21

I understand the fee structure may change as part of this request. If you have any questions please don't hesitate to contact me.

Kind regards,

John Clark

Not sure if you saw my email from earlier today, but the only information that I see that is responsive to FOIA request number 1104 is communication between GSA and VAS in negotiation of Lease Amendments 14 and 15. Those documents are found in the 2nd folder you provided me for review. Those documents only include redactions based on Exemptions 4 and 6, so the references to 5 and 7 should be removed from the response letter, and only the emails between GSA and VAS related to our negotiations regarding Lease Amendments 14 and 15 should be provided, not the occupancy agreement, the lease amendments, nor the internal emails between GSA employees. Let me know if you have any questions or want to discuss.

Good evening Hyacinth,

Contacting you regarding the GSA FOIA request # in the subject line and the status of the refund for the prior payment I had made per my recent conversation with Cassie. If you require any information from me to assist in processing that refund please let me know.

Also requesting an update on the below FOIA request #'s. I have not received any communication on these (2) FOIA requests from July and August since receipt of the acknowledgement letters (attached).

Request dated 7/29/21: FOIA - GSA-2021-001409

Request dated 8/5/21: FOIA - GSA-2021-001446

Thank you for your time and assistance.

Kind regards,

John Clark

Good Morning Mr. Clark

Thank you for your recent inquiries regarding your GSA FOIA 2021-001104

We received the eDiscovery Pull back from the IT Office and are evaluating it. Once we release this information to the Regional Office in Massachusetts, a new Fee Package will be sent to you.

I hope this information is helpful. Have a great day.

Thank you for your continued patience as we work through your FOIA request.

Good Afternoon John Clark:

This is in reference to your GSA Freedom of Information Act Request: GSA-2021-001104 , in which you requested the following:

"Please see attached FOIA Request dated 5/25/21 "

After careful review of your request, we have determined that your request is too broad in scope and does not specifically identify the records which you are seeking. The parameter of your request is broad to the point that any search conducted using them may result in thousands of potentially responsive documents.

The Freedom of Information Act (FOIA) provides authority to Federal Agencies to release documents that are specifically identified by the requester. It does not require an Agency to do an all-encompassing search of all records in order to respond to requests, create new records, answer questions posed by requesters, or attempt to interpret a request that does not identify records.

The Office managing your FOIA needs additional information in order to proceed with your FOIA. Please describe the record you are seeking with as much information as possible to ensure that our search can locate them with a reasonable amount of effort. Whenever possible, a request should include specific information about each record sought, such as the date, title or name, author, recipients, and subject matter of the records, if you know, or the GSA component or office you believe created and/or controls the record.

The below Template should assist you in submitting the Data Pull that is required for your FOIA Request; please be as specific and as narrow as possible, keeping in mind that GSA is a centralized federal government agency:

- 1 Keywords: This would be the name of the Individual/Title / Subject we are Searching-
 - i.e First Name, Last name, Title, Subject
- 2 GSA component or office you believe created and/or controls the record
 - i.e Office of Congressional and Intergovernmental Affairs (OCIA)
- 3 Timeframe: Insert specific Date Range (from & to)
- 4 Mailboxes: Insert specific mailbox addresses (include "@" symbol). These are the Mailboxes that the Information will be searched & retrieved
 - i.e First Name Last Name@Company/Govt Email Address

Please resubmit your request containing a reasonable description of the records you are seeking. Upon receipt of a perfected request, you will be advised as to the status of your request.

Additionally, there may be FOIA Fees to search and review the information retrieved from your email data pull request since email data pulls will oftentimes retrieve thousands of pages. We will have more information for you once the data pull has been conducted.

If we do not receive an amended request from you within 10 business days from the date of this letter (June 22, 2021), we will assume you are no longer interested in the FOIA request and will consider your request withdrawn. Please be advised that this action is not a denial of your request and will not preclude you from filing other request in the future.

Please be advised, our Office is available to discuss this FOIA request with you in more detail. Should you need to contact our office again about this matter, please reach us at our Toll Free number (855)-675-3642 and kindly reference **FOIA Request number GSA-2021-001104** you respond.

If you have any questions, please contact Mr. Travis Lewis, FOIA Program Manager, at (202) 219-3078 or by email at travis.lewis@gsa.gov. You may also contact the GSA FOIA Public Liaison, Duane Smith, at (202) 694-2934 or by email at duane.smith@gsa.gov for any additional assistance and to discuss any aspect of your FOIA request.

Thank you in advance for your assistance.

Respectfully,

Good afternoon I was contacted by Mr Clark regarding his FOIA (2021-001104) He said he has not heard anything recently and it is late, so he wants to know the status I see in FOIAonline that it is assigned to you and the last note is from Nov 20, and that the review should be done by the next Friday (Nov 26) The notes also say it is only about 300 pages, so it should not be that burdensome for the SME to turn them around Is there an update I can share with him? Thank you

Hello Patty/Mike,

Please see the shared folder below identifying the new scoped out results of the Clark FOIA. Travis and I worked with Meaghan LeClerc over the past few days to gather the parameters.

Between the two folders, there is a total of 374 pages. Kindly scan them and prepare the Fee Package for Mr. Clark as he is expecting this.

Should you have any questions, please reach out to me tomorrow.
Thank you both.

Good morning,

Hyacinth - thank you very much for your time earlier today discussing my FOIA Request #: GSA-2021-001104. It was a very productive conversation and I appreciate your time and the clarifications you provided.

As a follow up, I require adjustments to the overall timeline of my search criteria. As we discussed, Hyacinth, the timeline of the current data pull reflects the period between 7/10/19 - 7/31/21. However, this timeline is problematic as the records I am seeking also pre-date the signing of a particular GSA Lease document (Lease Amendment No. 14) which was executed on 7/10/19.

As a result, my requested adjustment for the narrowed keyword criteria/data pull timeline is the following:

2/1/19 - 7/31/21

I understand the fee structure may change as part of this request. If you have any questions, please don't hesitate to contact me.

Kind regards,

John Clark

Good morning Steve and Mike,

Mr Clark has remitted full payment This is a unique FOIA and due to the Volume, and the amount of times we went back to the "starting gate" with Mr Clark (eDiscovery Pull & Parameters), the new Due Date for R1's 1st Interim Release will be **September 29th** The attached fee letter that was sent to Mr Clark reflects Hyacinth's and Travis' August 9, 2021 meeting, where Mr Clark specifically requested GSA capture 6-months prior to the dates originally stated in his FOIA request The eDiscovery Pull parameters that were mutually agreed upon are listed in the attached letter Please let me know if you have any questions

Thank you,

Good afternoon D2,

Hope all is well with you today We have a FOIA request that will require an email/e-discovery request of GSA IT

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request

There are two separate pulls for this FOIA request Both pulls are described below as Pull #1 and Pull #2 We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking

Thanks, Travis

Hello Duane/Travis

As a follow up to the Staff Meeting I will be away next week (out of state) tending to a family matter and scheduled to return to the office on Friday July 23rd

During this time should any new FOIAs under my assignment come in please Task them to the following FOIA POC's for processing:

- PBS - Mike Mitchell (via Email w FOIA Casefile)
- OCIA - Erin Mewhirter (via Email w FOIA Casefile)
- PTT John Peters and Kaitlyn Schneider (via Email w FOIA Casefile)
- R1 PBS - Patricia Pierce
- R1 FAS - Carlene Noelsaint
- R2 PBS - Jennifer Diala-Wu
- R2 FAS - Dean Zimmer
- R5 - Arah Gibson (she is backfilling for Megan Brown who is on leave through July 30th)

Here are some pending issues that may/may not hit next week yet worth mentioning in case:

2021-001104 Clark (R1) - Pending Fee Package on 374 pgs
The SME has the revised eDiscovery Pull results and has been advised to prepare the Fee Package by July 21st

2020-000643 (b) (6) (PBS OFM) - Matthew Harbeson continues to work through the revisions to finalize this aged FOIA
According to him PBS Counsel is reviewing the final package

2021-001322 (b) (6) (PBS PT) - Recently tasked to Page Doan and have not received any feedback This Office usually pushes back on responding or prepares a full denial She may respond to this new task

2021-000725 (b) (6) (PBS Disposal) - In Litigation Couple of things going on here:
1 Brian Kee continues to review sort and propose redactions on the 2nd Interim Release (Master Attachments #2) and Emails
2 PBRB Courtney Johnson working their Consultation

2021-000904 (b) (6) - Arah Gibson is due to respond to this R5 inquiry Travis is cc'd on this as is Duane Smith

Thank you both so much for keeping things moving and although I am away I will be checking my emails periodically throughout the day

OK so John Clark and I just spoke based on his recent email

He is going to narrow his scope on the keywords and to make him aware of the Fee Package

In the interim I have also reached out to Mike Strobel (R1 SME) to inquire about the keeping of Project Files etc

Shall keep you posted Thank you again

Hi Hyacinth,

After review and our discussion this morning on this pull I think that this pull as crafted may bring back more emails than are actually responsive We talked about the "Lease" term and subbing in the actual lease number Alternatively, is this information that may all be in a case file with the R1 leasing office?

OK so John Clark and I just spoke based on his recent email

He is going to narrow his scope on the keywords and to make him aware of the Fee Package

In the interim I have also reached out to Mike Strobel (R1 SME) to inquire about the keeping of Project Files etc

Shall keep you posted Thank you again

Hello email team,

We continue to coordinate with the FOIA requester on this FOIA request 2021-001104. We had a phone call with him earlier today and he once again adjusted his timeframe/scope again.

Please re-run this pull with the following. This should be the last time we have to run his one.

Please note, instead of one large email date range, she wants to pull with smaller date ranges. I have labeled them as Pull #1 and Pull #2 for ease of titles.

Thanks again for all your help on this pull!

Hello email team,

Thanks again email team for your help on this FOIA request e-discovery. Working with Region 1 employees and re-communicating with the FOIA requester again based on the results of the first pull, we need to re-scope this FOIA request to the following criteria below. This is a much more narrow scope with a few additional pin-pointed terms to try to get what the requester is searching for in this FOIA request.

Thank you, Travis

Hello email team,

Thanks again email team for your help on this FOIA request e-discovery. Working with Region 1 employees and re-communicating with the FOIA requester again based on the results of the first pull, we need to re-scope this FOIA request to the following criteria below. This is a much more narrow scope with a few additional pin-pointed terms to try to get what the requester is searching for in this FOIA request.

Thank you, Travis

I hope all is well with you today. We have a FOIA request that will require an email/e-discovery request of GSA IT.

There are two separate pulls for this FOIA request. Both pulls are described below as Pull #1 and Pull #2. We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking.

The email pull requirements are listed out below.

Hello email team,

We continue to coordinate with the FOIA requester on this FOIA request 2021-001104. We had a phone call with him earlier today and he once again adjusted his timeframe/scope again.

Please re-run this pull with the following. This should be the last time we have to run this one.

Please note, instead of one large email date range, she wants to pulls with smaller date ranges I have labeled them as Pull #1 and Pull #2 for ease of titles

Thanks again for all your help on this pull!

Good morning email team,

I hope all is well with you today. We have a FOIA request that will require an email/e-discovery request of GSA IT.

There are two separate pulls for this FOIA request. Both pulls are described below as Pull #1 and Pull #2. We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking.

The email pull requirements are listed out below.

Thank you very much,

Hello Pat,

I'm really not understanding your email as I believe all the items you are questioning were provided to you in full

They were noted clearly on the Google Finance Worksheet and/or on the 2 Fee Package documents attached in my initial email to you

Please look at the documents again as you will see that this is in fact a Full Refund

Thank you

Good Evening Pat,

Kindly process a full refund back to Mr. John Clark for his GSA FOIA, GSA-2021-001104, in the amount of \$4,508.

For your reference, I have attached the Fee Letter and Fee Worksheet showing the amounts, etc. Should you need to speak directly to Mr. Clark, he can be reached at (508) 654-0208.

The snapshot below is from the Finance Sheet, of when his payment was initially recorded:

CD #	SOURCE / PAY.GOV #	PAYMENT RECEIVED	PAID DATE
603622	ck#1292	\$4,508.00	9/3/2021

Should you need any additional information related to his FOIA, please contact me or Travis directly via email.
Thank you kindly.

So to clarify, what I am asking is **why** the full refund. I did not see anything in the email, on the worksheet or in the attachments. The updated amount for this request from \$7150 to \$4,508 was clearly changed in the attachments to be due 9/15 and was received 9/3. So was the reason:

Did the requestor request a full refund from Mr Lewis, and Mr Lewis approved the full refund?
Was the FOIA not provided timely?
Was it determined that the information could not be provided?

The above are some of the reasons I have been given, so I am not trying to argue against the refund. I just I didn't know if there was a reason why or if Mr Lewis just wants me to do this full refund because you stated to **'Kindly process a full refund'**.

I hope this explains what I was asking for from you or Mr Lewis.

I wanted to let you know that the refund package has been processed by KC Payables and the refund should be received by the requestor within the next 10 business days.

I wanted to be sure to let you know to pass on to whoever in your group needs to know that Jon Carlson at this time needs to be added to any and all FOIA requests, and to be sure to copy in the [KC-cashreceipts@gsa.gov](#) as his backup so that your FOIA concerns are taken care of promptly.

John Clark Email: johndark@gsa.gov Phone: 508-654-0208	Cape Moraine, LLC	\$4,508.00	REFUND						CD# - Send Refund Request to BICEA

Good Evening Pat,

Kindly process a full refund back to Mr. John Clark for his GSA FOIA, GSA-2021-001104, in the amount of \$4,508.

For your reference, I have attached the Fee Letter and Fee Worksheet showing the amounts, etc. Should you need to speak directly to Mr. Clark, he can be reached at (508) 654-0208.

The snapshot below is from the Finance Sheet, of when his payment was initially recorded:

CD #	SOURCE / PAY.GOV #	PAYMENT RECEIVED	PAID DATE
603622	ck#1292	\$4,508.00	9/3/2021

Should you need any additional information related to his FOIA, please contact me or Travis directly via email.
Thank you kindly.

So to clarify, what I am asking is **why** the full refund. I did not see anything in the email, on the worksheet or in the attachments. The updated amount for this request from \$7150 to \$4,508 was clearly changed in the attachments to be due 9/15 and was received 9/3. So was the reason:

Did the requestor request a full refund from Mr Lewis, and Mr Lewis approved the full refund?
Was the FOIA not provided timely?
Was it determined that the information could not be provided?

The above are some of the reasons I have been given, so I am not trying to argue against the refund. I just I didn't know if there was a reason why or if Mr Lewis just wants me to do this full refund because you stated to **'Kindly process a full refund'**.

I hope this explains what I was asking for from you or Mr Lewis.

REQUESTER NAME	COMPANY	FOIA FEE AMOUNT	DUE DATE	CD # / DT	CHECK # / PAY.GOV #	\$ PAYMENT RECEIVED	CLEARED BY TREASURY	PEGASYS DOCUMENT NUMBER	GENERAL NOTES
John Clark Email: johndclarkv@gmail.com Phone: 508-654-0208	Cape Moraine, LLC	\$4,508.00	REFUND						Let's Send Refund Request to BGEA.

Good Evening Pat,

Kindly process a full refund back to Mr. John Clark for his GSA FOIA, GSA-2021-001104, in the amount of \$4,508.

For your reference, I have attached the Fee Letter and Fee Worksheet showing the amounts, etc. Should you need to speak directly to Mr. Clark, he can be reached at (508) 654-0208.

The snapshot below is from the Finance Sheet, of when his payment was initially recorded:

CD #	SOURCE / PAY.GOV #	PAYMENT RECEIVED	PAID DATE
603622	ck#1292	\$4,508.00	9/3/2021

Should you need any additional information related to his FOIA, please contact me or Travis directly via email.
Thank you kindly.

So to clarify, what I am asking is why the full refund. I did not see anything in the email, on the worksheet or in the attachments. The updated amount for this request from \$7150 to \$4,508 was clearly changed in the attachments to be due 9/15 and was received 9/3. So was the reason:

Did the requestor request a full refund from Mr Lewis, and Mr Lewis approved the full refund?
Was the FOIA not provided timely?
Was it determined that the information could not be provided?

The above are some of the reasons I have been given, so I am not trying to argue against the refund. I just didn't know if there was a reason why or if Mr Lewis just wants me to do this full refund because you stated to 'Kindly process a full refund'.

I hope this explains what I was asking for from you or Mr Lewis.

Hi Steve

Thank you for responding to the Clark FOIA inquiry and providing us with R1's response to how you will be responding

Unfortunately we cannot control how a Requester submits their FOIAs on a particular location or question their specific interest- all we can do is comply with the FOIA Guidelines and submit Clarifications/Fee Packages and have the Requester respond accordingly And as you are aware should the Requester choose not to respond or remit payment in the 10-business day timeframe GSA closes out their FOIA(s)

Thank you again for responding - and we look forward to receiving the responses to the Clark FOIAs

Steve,

Good afternoon, I'm the Public Liaison. I've spoken to the requester. He's understanding that we're making rolling releases. He'd like to know approximately how many pages we're expecting to get to him for review in October.

Best,
Cassie

Hi Steve

Thank you for responding to the Clark FOIA inquiry and providing us with R1's response to how you will be responding.

Unfortunately, we cannot control how a Requester submits their FOIAs on a particular location or question their specific interest - all we can do is comply with the FOIA Guidelines and submit Clarifications/Fee Packages and have the Requester respond accordingly. And, as you are aware, should the Requester choose not to respond or remit payment in the 10-business day timeframe, GSA closes out their FOIA(s).

Thank you again for responding - and we look forward to receiving the responses to the Clark FOIAs.

Have a great weekend

Good morning Hyacinth, All FOIA's are being worked on by R1 Leasing. I have 3 folks dedicated to the 01104 response. We will have a release of as many pages as we can get through for the October release. Reviewing 2400 pages is very time consuming. This is FY end and we are dedicating as much resources as possible to fulfilling our obligations to the FOIA statutes. I am still concerned that the same entity submits multiple separate FOIA's within a short period of time all related to the same project and geographic location. This requires a duplication of the administrative aspects required by FOIA.

That being said, we will continue working to redact files and will adhere to the agreement of a rolling release of documents as they are redacted and approved by legal.

Thanks for your understanding

Hello Meaghan

Please see the email inquiry from Mr Clark

Travis and I spoke earlier about the Clark FOIAs and think it is best that Region 1 either respond directly to him or provide us with the verbiage to send him since the 4 FOIAs are currently in open status with Region 1 - several are overdue as well

Our main concern is that Mr Clark remitted full payment in the amount of \$4 508 for GSA FOIA 2021-001104 and he is persistent on receiving status on this
At this time and to avoid an Appeal R1 needs to have the 1st Interim Release to him by mid October

The other FOIAs are as follows:

R1	2021-001104	Clark	Copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendment No's. 14 & 15 of Lease LRI04549
R1	2021-001409	Clark	Communications pertaining to PBS Lease LRI00279, in Warwick, Rhode Island. Keywords: Warwick, Cape Moraine, 7RI2043 Timeframe: 5/1/19 – 7/31/21, Mailboxes: bruce.callard@gsa.gov
R1	2021-001446	Clark	1) Copy of executed Lease Amendment No. 15 between VAS Realty, LLC 2) Copy of executed Lease Amendment No. 16 between VAS Realty, LLC
R1	2021-001656	Clark	OA's between Calendar Year 2018 through Calendar Year 2021 for GSA Lease LRI00279.

Hello Meaghan

Please see the email inquiry from Mr. Clark

Travis and I spoke earlier about the Clark FOIAs and think it is best that Region 1 either respond directly to him or provide us with the verbiage to send him since the 4 FOIAs are currently in open status with Region 1 - several are overdue as well

Our main concern is that Mr. Clark remitted full payment in the amount of \$4,508 for GSA FOIA 2021-001104 and he is persistent on receiving status on this.
At this time and to avoid an Appeal, R1 needs to have the 1st Interim Release to him by mid-October.

The other FOIAs are as follows:

R1	2021-001104	Clark	Copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendment No's. 14 & 15 of Lease LRI04549
R1	2021-001409	Clark	Communications pertaining to PBS Lease LRI00279, in Warwick, Rhode Island. Keywords: Warwick, Cape Moraine, 7RI2043 Timeframe: 5/1/19 – 7/31/21, Mailboxes: bruce.callard@gsa.gov
R1	2021-001446	Clark	1) Copy of executed Lease Amendment No. 15 between VAS Realty, LLC 2) Copy of executed Lease Amendment No. 16 between VAS Realty, LLC
R1	2021-001656	Clark	OA's between Calendar Year 2018 through Calendar Year 2021 for GSA Lease LRI00279.

Hi Steve

Thank you for responding to the Clark FOIA inquiry and providing us with R1's response to how you will be responding

Unfortunately we cannot control how a Requester submits their FOIAs on a particular location or question their specific interest- all we can do is comply with the FOIA Guidelines and submit Clarifications/Fee Packages and have the Requester respond accordingly And as you are aware should the Requester choose not to respond or remit payment in the 10-business day timeframe GSA closes out their FOIA(s)

Thank you again for responding - and we look forward to receiving the responses to the Clark FOIAs

Have a great weekend

Good morning Hyacinth, All FOIA's are being worked on by R1 Leasing I have 3 folks dedicated to the 01104 response We will have a release of as many pages as we can get through for the October release Reviewing 2400 pages is very time consuming This is FY end and we are dedicating as much resources as possible to fulfilling our obligations to the FOIA statutes I am still concerned that the same entity submits multiple separate FOIA's within a short period of time all related to the same project and geographic location This requires a duplication of the administrative aspects required by FOIA
That being said, we will continue working to redact files and will adhere to the agreement of a rolling release of documents as they are redacted and approved by legal

Hi Steve

Thank you for responding to the Clark FOIA inquiry and providing us with R1's response to how you will be responding.

Unfortunately, we cannot control how a Requester submits their FOIAs on a particular location or question their specific interest- all we can do is comply with the FOIA Guidelines and submit Clarifications/Fee Packages and have the Requester respond accordingly. And as you are aware, should the Requester choose not to respond or remit payment in the 10-business day timeframe, GSA closes out their FOIA(s).

Thank you again for responding - and we look forward to receiving the responses to the Clark FOIAs

Hello Meaghan

Please see the email inquiry from Mr Clark

Travis and I spoke earlier about the Clark FOIAs and think it is best that Region 1 either respond directly to him or provide us with the verbiage to send him since the 4 FOIAs are currently in open status with Region 1 - several are overdue as well

Our main concern is that Mr Clark remitted full payment in the amount of \$4 508 for GSA FOIA 2021-001104 and he is persistent on receiving status on this
At this time and to avoid an Appeal R1 needs to have the 1st Interim Release to him by mid October

The other FOIAs are as follows:

R1	2021-001104	Clark	Copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendment No's. 14 & 15 of Lease LRI04549
R1	2021-001409	Clark	Communications pertaining to PBS Lease LRI00279, in Warwick, Rhode Island. Keywords: Warwick, Cape Moraine, 7RI2043 Timeframe: 5/1/19 – 7/31/21, Mailboxes: bruce.callard@gsa.gov
R1	2021-001446	Clark	1) Copy of executed Lease Amendment No. 15 between VAS Realty, LLC 2) Copy of executed Lease Amendment No. 16 between VAS Realty, LLC
R1	2021-001656	Clark	OA's between Calendar Year 2018 through Calendar Year 2021 for GSA Lease LRI00279.

I do not have an answer for you Cassie I have 4 LS/LCO's working on this That is 30 % of my staff I will have an estimated amount of docs to be released on Thursday This is no small undertaking I cannot give you an estimate right now because it would not be accurate Mr Clark will hold you to a number if you give it to him Trust me, I know he can be a bit demanding and relentless We are making a good faith effort to get through some of the docs for the first release, I expect we can have a lot more for future releases I can let you know Thursday

Hi Steve

Thank you for responding to the Clark FOIA inquiry and providing us with R1's response to how you will be responding

Unfortunately we cannot control how a Requester submits their FOIAs on a particular location or question their specific interest- all we can do is comply with the FOIA Guidelines and submit Clarifications/Fee Packages and have the Requester respond accordingly And as you are aware should the Requester choose not to respond or remit payment in the 10-business day timeframe GSA closes out their FOIA(s)

Thank you again for responding - and we look forward to receiving the responses to the Clark FOIAs

Have a great weekend

Good morning Hyacinth, All FOIA's are being worked on by R1 Leasing. I have 3 folks dedicated to the 01104 response. We will have a release of as many pages as we can get through for the October release. Reviewing 2400 pages is very time consuming. This is FY end and we are dedicating as much resources as possible to fulfilling our obligations to the FOIA statutes. I am still concerned that the same entity submits multiple separate FOIA's within a short period of time all related to the same project and geographic location. This requires a duplication of the administrative aspects required by FOIA.

That being said, we will continue working to redact files and will adhere to the agreement of a rolling release of documents as they are redacted and approved by legal.

Thanks for your understanding.

My understanding is that all 4 of these FOIA requests are assigned to leasing. I am not sure why Central Office has reached out to me to get a status update since there is no legal issue involved. Can you please provide an update? Thanks.

Hello Meaghan

Please see the email inquiry from Mr. Clark.

Travis and I spoke earlier about the Clark FOIAs and think it is best that Region 1 either respond directly to him or provide us with the verbiage to send him since the 4 FOIAs are currently in open status with Region 1 - several are overdue as well.

Our main concern is that Mr. Clark remitted full payment in the amount of \$4,508 for GSA FOIA 2021-001104 and he is persistent on receiving status on this. At this time, and to avoid an Appeal, R1 needs to have the 1st Interim Release to him by mid-October.

The other FOIAs are as follows:

R1	2021-001104	Clark	Copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendment No's. 14 & 15 of Lease LRI04549.
R1	2021-001409	Clark	Communications pertaining to PBS Lease LRI00279, in Warwick, Rhode Island. Keywords: Warwick, Cape Moraine, 7RI2043. Timeframe: 5/1/19 – 7/31/21, Mailboxes: bruce.callard@gsa.gov
R1	2021-001446	Clark	1) Copy of executed Lease Amendment No. 15 between VAS Realty, LLC 2) Copy of executed Lease Amendment No. 16 between VAS Realty, LLC
R1	2021-001656	Clark	OA's between Calendar Year 2018 through Calendar Year 2021 for GSA Lease LRI00279.

Thank you for addressing this matter.

The files are far less than the 91 000 pages from the prior eDiscovery pull - the exact amount is not determined at this time

To answer your question there is no "approval" of the GSA Fee Package Once it is sent to you you either remit payment within the 10-day timeframe or choose not to This option is stated in the Fee Letter

Good evening Hyacinth,

Based on our recent phone conversation I don't understand how the exact amount of files are still undetermined despite the eDiscovery pull has already been completed by the central FOIA office? Thank you for your insight

Kind regards,

John Clark

Mr Clark

The files are far less than the 91 000 pages from the prior eDiscovery pull - the exact amount is not determined at this time

To answer your question there is no "approval" of the *GSA Fee Package* Once it is sent to you you either remit payment within the 10-day timeframe or choose not to This option is stated in the *Fee Letter*

Please be patient until you receive your *Fee Package* from the *MA Office*

Good afternoon Mike,

Understood. Yes, I was aware you were on some leave earlier this month as we discussed previously on the phone. Using the guidance Hyacinth originally provided for the fee assessment, do you think you can get us back an estimate by the end of the month, by the end of the day August 31st?

Yes, he did submit additional FOIAs; however, at this time, please just focus on developing the Fee Package using the instructions we provided you. Meaghan and Patty on August 16th. That email is critical as it broke down the eDiscovery Pull.

Good evening Hyacinth,

Based on our recent phone conversation I don't understand how the exact amount of files are still undetermined despite the eDiscovery pull has already been completed by the central FOIA office? Thank you for your insight

The files are far less than the 91 000 pages from the prior eDiscovery pull - the exact amount is not determined at this time

To answer your question there is no "approval" of the GSA Fee Package Once it is sent to you you either remit payment within the 10-day timeframe or choose not to This option is stated in the Fee Letter

Please be patient until you receive your Fee Package from the MA Office

Welcome Back Mike - hope your time away was well enjoyed and you got to enjoy yourself

Yes he did submit additional FOIAs; however at this time please just focus on developing the Fee Package using the instructions we provided you Meaghan and Patty on August 16th That email is critical as it broke down the eDiscovery Pull

Thank you again

Good evening Hyacinth,

Based on our recent phone conversation I don't understand how the exact amount of files are still undetermined despite the eDiscovery pull has already been completed by the central FOIA office? Thank you for your insight

The files are far less than the 91 000 pages from the prior eDiscovery pull - the exact amount is not determined at this time

To answer your question there is no "approval" of the GSA Fee Package Once it is sent to you you either remit payment within the 10-day timeframe or choose not to This option is stated in the Fee Letter

Please be patient until you receive your Fee Package from the MA Office

Hi Mike - Good Evening

Using the 2,400 pages from the latest eDiscovery Pull that Travis and I shared with you on August 16th, I have gone ahead and calculated the Search and Review Fees for you to expedite this package for processing for R1 Concurrence, etc.

Using the Calculation we provided you on the August 16th email, please see below:

Search Costs: 2,400 pages / 200 pages per hour = **12 Hours** x \$49 per Hour = **\$576.00 Total Search Cost**
Review Costs: 2,400 pages / 30 pages per hour = **80 Hours** x \$49 per Hour = **\$3,920 Total Review Cost**

Grand Total = \$576 + \$3,920 = \$4,496.00

Using these calculations, we are asking that you please use the attached Templates and prepare the Fee Package and send this back so Travis can sign the letter and we can release it to Clark on August 31st.

Thank you so much for helping to expedite this.

Hello Robert,

We base our searches on the requested criteria. Below are the timeframes requested.

Tue, Jun 22, 10:58 AM - Received a FOIA request to search the following dates.

Search 1	Search 2
Timeframe: February 1, 2019 through July 31, 2019	Timeframe: December 1, 2020 through May 31, 2021
Our team provided the requested data to this search on June 23, to Travis Lewis and team.	

On Tue, Jul 13, 5:01 PM we received an email that "we need to re-scope this FOIA request to the following criteria below." which included the following dates:

Search 1
Timeframe:
July 10, 2019 through July 31, 2021

If you would like to further discuss, please let us know of a good time to meet.

Thank You,

All,

We are trying to figure out what went wrong with our eDiscovery Pull for the FOIA request GSA-2021-001104. The attached file from the pull shows two things: first that the requested dates were supposed to be only through May 31, 2021, and second that it pulled emails from later dates after the requested search window.

This is a high profile FOIA request for GSA and senior GSA leadership has made inquiries regarding the status.

According to the initial review done by one of the SMEs over 80% of the records in one of the files non-responsive due to the date. Is there any way that we can go back and look to see what caused this problem, whether it was a miscommunication, data entry error, or the eDiscovery tools provided faulty results? Or possibly there was another cause?

I am happy to discuss the matter as needed and appreciate any insight you can provide.

Respectfully,

Jeremy

Good afternoon Robert,

I just wanted to reiterate our team's commitment to this process. Mary and Angela on my team have years of experience working on FOIA with Travis. We never process any request until we receive explicit instructions from the FOIA team.

Please review the timeline and the requests that we recd. If needed, we are happy to jump on a call to discuss.

The attached file from the pull shows two things: first that the requested dates were supposed to be only through May 31, 2021, and second that it pulled emails from later dates after the requested search window.

This is a high profile FOIA request for GSA and senior GSA leadership has made inquiries regarding the status.

According to the initial review done by one of the SMEs over 80% of the records in one of the files non-responsive due to the date. Is there any way that we can go back and look to see what caused this problem, whether it was a miscommunication, data entry error, or the eDiscovery tools provided faulty results? Or possibly there was another cause?

I am happy to discuss the matter as needed and appreciate any insight you can provide.

Hello emcstteam,

Thanks again email team for your help on this FOIA request e-discovery. Working with Region 1 employees and re-communicating with the FOIA requester again based on the results of the first pull, we need to re-scope this FOIA request to the following criteria below. This is a much more narrow scope with a few additional pre-ported terms to try to get what the requester is searching for in this FOIA request.

Thank you Travis

Hi Robert,

Per your request, here is a copy of the request that was sent to us.

A screenshot of an email from Travis Lewis to John Clark. The subject line is "Re: reDiscovery Pull GSA-2021-C01104 - requester John Clark". The email body states: "Thanks again small team for your help on the FOIA request a discovery. Working with flagion 1 employees and re-communicating with the FOIA requester again based on the results of the first pull, we need to re-scope this FOIA request to the following criteria below. This is a much more narrow scope with a few additional geo-ported items to try to get what the requester is searching for this FOIA request." The email lists five key words: "1448", "US204549" and "Issac amendment 14", "US204549" and "Issac amendment 15", "Tom McLaughlin", and "Scale". It also includes a time frame: "July 10, 2019 through July 31, 2021". At the bottom, it lists GSA Mailboxes: nsa.ctr@gsa.gov, nsamarc@gsa.gov, and nsosx@gsa.gov.

Hi Hyacinth,

The results as are well over 100,000 With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease Because, at this point, I would not know what guidance to provide the requester to narrow the scope We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results However, without further information I'm at a loss on why so many emails were returned in this case

Hope all is well with you today. We have a FOIA request that will require an email/e-discovery request of GSA IT.

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request.

There are two separate pulls for this FOIA request. Both pulls are described below as Pull #1 and Pull #2. We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking.

Hyacinth

As we discussed, my understanding is that the FOIA request is seeking copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendments No. 14 and Lease Amendment No. 15 of Lease LR104549. It doesn't appear to me that the eDiscovery pull focused on words like "amendment" or "lease amendment" or "lease amendment 14" or "lease amendment 15." Perhaps you can narrow the search by searching "lease amendment 14" and "lease amendment 15."

Hello Mike and Patty

The eDiscovery Data results are in and have been converted at least 5 out of the 6 files  
Per Travis' email below, there are 107,332 total email pages, not including attachments in this count

Rather than me regurgitating Travis' email, kindly read through it and let's plan to discuss in more detail at tomorrow. At this point, it may also be prudent to see whether there are specific Project Files in R1 where these responsive records can be readily available and extracted for the purpose of this FOIA request

Thank you both and look forward to hearing what times you both are available to meet tomorrow

Hi Hyacinth,

The results as are well over 100,000. With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease. Because, at this point, I would not know what guidance to provide the requester to narrow the scope. We already provided him one opportunity to narrow the scope - and at face value looking at the pull, it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results. However, without further information I'm at a loss on why so many emails were returned in this case.

I'm still converting the last file. It has errored a couple times over the weekend. The other five files saved late last week. However, this pull is massive and has pulled back thousands of emails. I'm shocked that it returned this many emails. I will share what I have - but it will most definitely need to be narrowed down as it is really unmanageable as is.

Hope all is well with you today We have a FOIA request that will require an email/e-discovery request of GSA IT

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request

There are two separate pulls for this FOIA request Both pulls are described below as Pull #1 and Pull #2 We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease Because, at this point, I would not know what guidance to provide the requester to narrow the scope We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results However, without further information I'm at a loss on why so many emails were returned in this case

Hi Hyacinth,

I'm still converting the last file. It has errored a couple times over the weekend. The other five files saved late last week. However, this pull is massive and has pulled back thousands of emails. I'm shocked that it returned this many emails. I will share what I have - but it will most definitely need to be narrowed down as it is really unmanageable as is.

Good afternoon D2,

Hope all is well with you today. We have a FOIA request that will require an email/e-discovery request of GSA IT.

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request.

There are two separate pulls for this FOIA request. Both pulls are described below as Pull #1 and Pull #2. We have had several back and forth clarification discussions with the requester to tailor the pull to what he is seeking.

Thanks, Travis

The request is for copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendments No. 14 and 15. It looks like the pull was for all communication related to Lease LRI04549. Have we focused the search just on Amendments 14 and 15?

The eDiscovery Data results are in and have been converted at least 5 out of the 6 files
Per Travis' email below, there are 107,332 total email pages, not including attachments in this count

Rather than me regurgitating Travis' email, kindly read through it and let's plan to discuss in more detail at tomorrow. At this point, it may also be prudent to see whether there are specific Project Files in R1 where these responsive records can be readily available and extracted for the purpose of this FOIA request

Hi Hyacinth,

The results as are are well over 100,000 With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease Because, at this point, I would not know what guidance to provide the requester to narrow the scope We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results However, without further information I'm at a loss on why so many emails were returned in this case

Hi Hyacinth,

The results as are are well over 100,000. With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count.

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did.

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease. Because, at this point, I would not know what guidance to provide the requester to narrow the scope. We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull.

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results. However, without further information I'm at a loss on why so many emails were returned in this case.

Hyacinth,

As we discussed, my understanding is that the FOIA request is seeking copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendments No. 14 and Lease Amendment No. 15 of Lease LRI04549. It doesn't appear to me that the eDiscovery pull focused on words like "amendment" or "lease amendment" or "lease amendment 14" or "lease amendment 15." Perhaps you can narrow the search by searching "lease amendment 14" and "lease amendment 15."

Hi Hyacinth,

The results as are are well over 100,000. With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count.

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did.

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease. Because, at this point, I would not know what guidance to provide the requester to narrow the scope. We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrow scope for this pull.

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results. However, without further information I'm at a loss on why so many emails were returned in this case.

Good afternoon D2,

Hope all is well with you today We have a FOIA request that will require an email/e-discovery request of GSA IT

Before proceeding to GSA IT to run the pull in Google Vault, I want to get your assessment to see if any edits or modifications are needed for the e-discovery request

There are two separate pulls for this FOIA request Both pulls are described below as Pull #1 and Pull #2 We have had several back and forths clarification discussions with the requester to tailor the pull to what he is seeking

Thanks, Travis

Good morning,

Thank you for the clarification however the date range you provided is inconsistent with my actual, prior request. You state in your email below the timeframe of my request is:

Timeframe:

July 10, 2019 through July 31, 2021

However per the copy of my attached request the timeframes I requested were:

2/1/19 - 7/31/19 and 12/1/20 - 5/31/21

I have no problem with you expanding the timeframe beyond my original request and I will pay for the additional fees associated with that expansion of timeline, but it absolutely must go back to my original start date of 2/1/19 and not 7/10/19.

Thank you, any questions feel free to contact me.

Hi Hyacinth,

That is why I want to ensure we put this in writing to him - to ensure we document our actions. We can do a call as well, but we also need to confirm with him in writing with a follow-up email.

Did you follow-up with him in writing after your last call with him regarding the scope of the pull? If so, we just can send this email to him summarizing your initial call with him. That will answer the questions he had from Friday.

Hi Hyacinth,

Looking over this email this morning, this may be an easy answer back to Mr. Clark. If you can pull up the email or the documentation confirming your conversation with him and his agreement to narrow the search scope, that would be all we need to re-provide him on this.

If we worked off the results of his initial scope, it would have been tens of thousands of emails (not even mentioning the attachments). And that was the reason we narrowed the scope for this re-pull.

This is in reference to your GSA Freedom of Information Act Request: GSA-2021-001104, in which you requested:

Please see attached FOIA Request dated 5/25/21

Please see the enclosed GSA Fee Letter, Fee Determination Sheet, GSA Form 3602B and kindly follow the instructions in the Fee Letter for submitting your payment to GSA. As a reminder, DO NOT MAIL CREDIT CARD FORM. FAX ONLY TO 816-823-1048 to ensure Protection of Personal Identifiable Information (PII) Requester's information. You can send payment directly to kc-cashreceipts@gsa.gov.

Please ensure all the information is legible, signed and complete with all required information:
FOIAOnline Number
Amount Remitted
Billing Address Information: State, Zip Code, and Country
Select Card Type with X, on that line enter the credit card number and expiration date mm/yyyy
Printed Cardholder Name
Telephone Number
Date

If you have any questions or wish to narrow your request's scope, we will be happy to provide you with a revised estimate of the new anticipated costs. Please do not hesitate to contact the point of contact that is noted on the attached Fee Assurance Letter.

You can also contact me at our toll-free number 1-855-675-FOIA (3642) or via email at gsa.foia@gsa.gov. Additionally, you may also contact the GSA FOIA Public Liaison, Duane Smith, at (202) 694-2934 or duane.smith@gsa.gov to discuss any aspect of your FOIA request.

Sincerely,

Good morning,
As part of my request for clarification(s) response, please also have the subject matter expert answer the following questions:
1) Who is responsible for altering the timelines in the Fee Assurance letter from my original FOIA request? Was this a clerical error?
2) There is a conflict of interest present in your selection of the Region 1 PBS GSA representative - Mike Strobel - handling my request / data collection as he, individually, is explicitly named in my FOIA request.
Please respond with the requested clarification no later than 8/2/21 so that I can retain my right(s) to pay and receive the information I requested and am entitled to.

Thank you

Thank you for the clarification however the date range you provided is inconsistent with my actual, prior request. You state in your email below the timeframe of my request is:

Timeframe:

July 10, 2019 through July 31, 2021

However per the copy of my attached request the timeframes I requested were:

2/1/19 - 7/31/19 and 12/1/20 - 5/31/21

I have no problem with you expanding the timeframe beyond my original request and I will pay for the additional filed associated with that expansion of timeline, but it absolutely must go back to my original start date of 2/1/19 and not 7/10/19.

Hi Hyacinth,

Looking over this email this morning, this may be an easy answer back to Mr Clark If you can pull up the email or the documentation confirming your conversation with him and his agreement to narrow the search scope, that would be all we need to re-provide him on this

If we worked off the results of his initial scope, it would have been tens of thousands of emails (not even mentioning the attachments) And that was the reason we narrowed the scope for this re-pull

Good morning,

Thank you for the clarification however the date range you provided is inconsistent with my actual, prior request. You state in your email below the timeframe of my request is:

Timeframe:

July 10, 2019 through July 31, 2021

However per the copy of my attached request the timeframes I requested were:

2/1/19 - 7/31/19 and 12/1/20 - 5/31/21

I have no problem with you expanding the timeframe beyond my original request and I will pay for the additional fees associated with that expansion of timeline, but it absolutely must go back to my original start date of 2/1/19 and not 7/10/19.

Thank you, any questions feel free to contact me.

Good morning,

Thank you for the clarification however the date range you provided is inconsistent with my actual, prior request. You state in your email below the timeframe of my request is:

Timeframe:

July 10, 2019 through July 31, 2021

However per the copy of my attached request the timeframes I requested were:

2/1/19 - 7/31/19 and 12/1/20 - 5/31/21

I have no problem with you expanding the timeframe beyond my original request and I will pay for the additional filed associated with that expansion of timeline, but it absolutely must go back to my original start date of 2/1/19 and not 7/10/19.

Thank you, any questions feel free to contact me.

Hi Hyacinth,

Looking over this email this morning, this may be an easy answer back to Mr. Clark. If you can pull up the email or the documentation confirming your conversation with him and his agreement to narrow the search scope, that would be all we need to re-provide him on this.

If we worked off the results of his initial scope, it would have been tens of thousands of emails (not even mentioning the attachments). And that was the reason we narrowed the scope for this re-pull.

Hi Travis,

On Monday, can you and I plan on talking with Clark about this?

I did speak with him regarding the new and narrowed scope for the revised parameters, inclusive of the date range which reflected the dates of the Amendments (14 & 15). He was amenable; however, I do believe he has forgotten.

Thank you and maybe if we both speak with him, he can better understand.

Have a great weekend. I'm off now, heading to get my prescription.

Good morning,

Thank you for the clarification however the date range you provided is inconsistent with my actual, prior request. You state in your email below the timeframe of my request is:

Timeframe:

July 10, 2019 through July 31, 2021

However per the copy of my attached request the timeframes I requested were:

2/1/19 - 7/31/19 and 12/1/20 - 5/31/21

I have no problem with you expanding the timeframe beyond my original request and I will pay for the additional filed associated with that expansion of imeline, but it absolutely must go back to my original start date of 2/1/19 and not 7/10/19.

Thank you, any questions feel free to contact me.

Hi Mike - Good Evening

Using the 2 400 pages from the latest eDiscovery Pull that Travis and I shared with you on August 16th I have gone ahead and calculated the Search and Review Fees for you to expedite this package for processing for R1 Concurrence etc

Using the Calculation we provided you on the August 16th email please see below:

Search Costs: 2 400 pages / 200 pages per hour = 12 Hours x \$49 per Hour = \$576.00 Total Search Cost
Review Costs: 2 400 pages /30 pages per hour = 80 Hours x \$49 per per Hour = \$3,920 Total Review Cost

Grand Total = \$576 + \$3,920 = \$4,496.00

Using these calculations we are asking that you please use the attached Templates and prepare the Fee Package and send this back so Travis can sign the letter and we can release it to Clark on August 31st

Thank you so much for helping to expedite this

Good afternoon Mike - I reviewed the fee assurance letter and fee determination sheet and the dollar amounts do not match (as well as your email below). In the fee determination sheet the amounts I get are:

- Review - \$49.00 x 40 hours = \$1,960.00
- Search - \$49.00 x 100 hours = \$4,900.00
- Copies - 2900 pages x .10 = \$290.00
- Total = \$7,150.00
- Your Total was \$8,125.00

The fee assurance letter states the total fee amount is \$8,425.00 (120 hours).

Please correct and resend back to me and I will send the fee package to the requester tomorrow morning.

Good afternoon Mike - I reviewed the fee assurance letter and fee determination sheet and the dollar amounts do not match (as well as your email below). In the fee determination sheet the amounts I get are:

- Review - \$49.00 x 40 hours = \$1,960.00
- Search - \$49.00 x 100 hours = \$4,900.00
- Copies - 2900 pages x .10 = \$290.00
- **Total = \$7,150.00**
- **Your Total was \$8,125.00**

The fee assurance letter states the total fee amount is \$8,425.00 (120 hours).

Please correct and resend back to me and I will send the fee package to the requester tomorrow morning.

Reading Nancy's email... My assumption is that are email chains that cross the two date periods When you reply to older emails with a newer emails within the time period in scope it may pick up emails that will also include the older emails and then indeed make them with-in scope again

I will need to look through some examples and see what may be happening here before we look to technology for "a fix" These emails may be responsive depending on the situations

To: Cassie Trangsud - LDW <cassie.trangsud@gsa.gov>, Hyacinth Perrault - LG <hyacinth.perrault@gsa.gov>

We are all set to connect via Googlemeet at 10 tomorrow for a primer on FOIA reviews Attending will be LCO Mike Strobel and his two colleagues, Patti Todesca and Robert Montminy Meaghan and I will also be there A third "reviewer", Jason Perez, is in training tomorrow and Meaghan will coach him separately

In our 4 p m R1 team meeting today regarding document review in response to the above request an issue emerged regarding dates of the documents received for review

The agreed dates for Pull #1 of this FOIA are the 6 months starting Feb 1, 2019 and ending July 31, 2019 (the "Pull 1 Dates")

The agreed dates for Pull #2 of this FOIA are the 6 months starting December 1, 2020 and ending May 31, 2021 (the "Pull 2 Dates")

There are 16 months between the Pull 1 Dates and the Pull 2 Dates (Aug 1, 2019 through Nov 30, 2020) Let's call that the "Non-Responsive Time Period" It appears the documents sent to R1 for review include some (could be many) from the Non-Responsive Time Period For example, when we spoke today I described email between me and personnel in the A Suite regarding the IG Report and how to deal with that I was concerned about protecting that email All of that email would have been exchanged during the Non-Responsive Time Period It should not be included in our review The review should be only of email from the Pull 1 or Pull 2 time periods, which total 12 mos If there are an additional 16 months of documents included in the collection to be reviewed, we need to figure out a way to eliminate those - preferably electronically To do so by hand would increase the workload exponentially Let's discuss this in the morning

Thanks

Nancy

Between us -

Not sure whether you would want to be in attendance at the 10am R1 Meeting with Cassie (who is giving a presentation on how and what to redact) I do believe your presence would be a benefit/worthwhile to the happenings in R1

I RSVP'd "maybe" due to our standing 10am meeting

We are all set to connect via Googlemeet at 10 tomorrow for a primer on FOIA reviews Attending will be LCO Mike Strobel and his two colleagues, Patti Todesca and Robert Montminy Meaghan and I will also be there A third "reviewer", Jason Perez, is in training tomorrow and Meaghan will coach him separately

In our 4 p m R1 team meeting today regarding document review in response to the above request an issue emerged regarding dates of the documents received for review

The agreed dates for Pull #1 of this FOIA are the 6 months starting Feb 1, 2019 and ending July 31, 2019 (the "Pull 1 Dates")

The agreed dates for Pull #2 of this FOIA are the 6 months starting December 1, 2020 and ending May 31, 2021 (the "Pull 2 Dates")

Hi Hyacinth,

Thanks again for the update

I have not been invited to this meeting I will be glad to attend if invited and we could move the meeting with DeLee to 11am

I will talk with Cassie in the morning and see what she thinks

There are 16 months between the Pull 1 Dates and the Pull 2 Dates (Aug 1, 2019 through Nov 30, 2020). Let's call that the "Non-Responsive Time Period". It appears the documents sent to R1 for review include some (could be many) from the Non-Responsive Time Period. For example, when we spoke today I described email between me and personnel in the A Suite regarding the IG Report and how to deal with that. I was concerned about protecting that email. All of that email would have been exchanged during the Non-Responsive Time Period. It should not be included in our review. The review should be only of email from the Pull 1 or Pull 2 time periods, which total 12 mos. If there are an additional 16 months of documents included in the collection to be reviewed, we need to figure out a way to eliminate those - preferably electronically. To do so by hand would increase the workload exponentially. Let's discuss this in the morning.

Good afternoon Seth/Travis,

Thank you for the follow up Seth. On the topic of FOIA Request # GSA-2021-001104, the results of which I received yesterday, I have a question I'm hoping could be answered/resolved without the need to proceed with a formal appeal of the information that was provided.

The request for documentation contemplates both LA #14 and LA #15. I only received results associated with LA #14.

Are similar pull results forthcoming for LA #15? I've attached LA #15 for your reference which was provided to me via FOIA Request # 001446. Thank you for your time.

Kind regards,

John Clark

Hi Hyacinth,

I'm thinking that this would probably be a good thing to discuss with Matt at the Thursday morning meeting, to see why our email pull may not have pulled LA#15 items I do not recall seeing any results around this pull for LA#15 as I reviewed the results that came back from the e-discovery pull

Thank you for he quick response Travis,

To better understand the clarifications you provided, can you confirm that no other mailboxes at GSA , besides those listed in the attached 8/13 FOIA letter - mike.strobel@gsa.gov keefe.murray@gsa.gov nancy.oconnell@gsa.gov , were considered in he pull parameters as it pertains to answering #1 and #2 below? In essence the 12/13 final disposition letter was actually a blended application of all parameters outlined in the 8/13 letter and he 12/13 letter, whereas a pull from the 3 GSA mailboxes mentioned above returned no positive results as it pertains to answering #2 below? Is this a correct interpretation? Thank you for your time.

Hi Hyacinth,

Thank you for including me on this email here. Yes, I did see the response you gave Mr. Clark, you did cc me on it. And thank you for that. Yes, it is not really appropriate yet to give Mr. Clark a specific date, as there is much review still needed on this one, a specific date will be difficult to pinpoint at the moment.

I will be glad to discuss further with you if needed whenever is convenient for you. I can take a stab at Matt's questions here, but I do not want to mistpeak on anything not having seen the folder contents yet.

Hope you had or have a good and safe flight!

Hi Matt,

We divided up the pages that were in the shared folder. There were about 300 or so pages total in the folder. We may be able to get all of it completed by next Friday. We have set up a weekly check-in meeting every Friday so we can confirm by tomorrow.

Also we had a few questions that you may be able to help with.

1. Will there be a weekly deadline and/or expected turnaround time?

2. Is there a date when this FOIA will need to be complete?

3 How many documents can we expect?

Regards,
Carey

Good morning Matt,

Thank you for getting this update to Hyacinth and I, and we very much appreciate the update and assistance your team is providing. I am providing answers to Carey's questions below.

1. Will there be a weekly deadline and/or expected turnaround time?

This FOIA request is technically overdue according to the FOIA regulation timelines, and was already overdue before your team started working on it. This was due to a variety of issues around scoping of the request and pulling the responsive information prior to your involvement. That being said, with your update here, it appears that very good progress is already being made. And your update here of we may be able to get all of it completed by next Friday is well ahead of what I was expecting, as you have just been able to start on the work. This timeline will be very appropriate and even if it goes into the next week, that will be fine, as I know we have a holiday shortened week next week with Thanksgiving.

2. Is there a date when this FOIA will need to be complete?

This requester is already in litigation with GSA outside of the FOIA process. So it would be very advantageous to GSA if we can have this completed by Friday December 3rd.

3. How many documents can we expect?

I believe that there should not be any additional documents for this specific FOIA request, GSA-2021-001104. This requester has other FOIA requests in the pipeline, however, there should not be any additional documents on this specific FOIA request.

I want to again thank you and your team for this assistance on this FOIA response. It is very much appreciated.

Thank you for getting this update to Hyacinth and I, and we very much appreciate the update and assistance your team is providing I am providing answers to Carey's questions below

- 1 Will there be a weekly deadline and/or expected turnaround time?
This FOIA request is technically overdue according to the FOIA regulation timelines, and was already overdue before your team started working on it This was due to a variety of issues around scoping of the request and pulling the responsive information prior to your involvement That being said, with your update here, it appears that very good progress is already being made And your update here of we may be able to get all of it completed by next Friday is well ahead of what I was expecting, as you have just been able to start on the work This timeline will be very appropriate and even if it goes into the next week, that will be fine, as I know we have a holiday shortened week next week with Thanksgiving
- 2 Is there a date when this FOIA will need to be complete?
This requester is already in litigation with GSA outside of the FOIA process So it would be very advantageous to GSA if we can have this completed by Friday December 3rd
- 3 How many documents can we expect?
I believe that there should not be any additional documents for this specific FOIA request, GSA-2021-001104 This requester has other FOIA requests in the pipeline, however, there should not be any additional documents on this specific FOIA request
- I want to again thank you and your team for this assistance on this FOIA response It is very much appreciated

Hi Matt

We divided up the pages that were in the shared folder. There were about 300 or so pages total in the folder. We may be able to get all of it completed by next Friday.

We have set up a weekly check in meeting every Friday so we can confirm by tomorrow.

Also we had a few questions that you may be able to help with.

- 1 Will there be a weekly deadline and/or expected turnaround time?
- 2 Is there a date when this FOIA will need to be complete?
- 3 How many documents can we expect?

Regards,
Carey

Good morning Mr. Clark,

I am providing a redacted copy of the LA#15 that was returned in our search for FOIA request GSA-2021-001104 based on our agreed-upon search parameters. This document was gathered in our search for responsive documents for this FOIA request. However, this document was located outside of the scope of the FOIA request for GSA-2021-001104. Your request is for copies of communications between GSA and VAS Realty on these Lease Amendments as you requested as below:

- 1) Copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendment No. 14 of Lease LRI04549
- 2) Copies of all communication between GSA and VAS Realty, LLC in negotiation of executed Lease Amendment No. 15 of Lease LRI04549

GSA's FOIA request response provided to you on December 13th contains all the communications that we located between GSA and VAS.

Good afternoon Seth/Travis,

Thank you for the follow up Seth. On the topic of FOIA Request # GSA-2021-001104, the results of which I received yesterday, I have a question I'm hoping could be answered/resolved without the need to proceed with a formal appeal of the information that was provided.

The request for documentation contemplates both LA #14 and LA #15. I only received results associated with LA #14.

Are similar pull results forthcoming for LA #15? I've attached LA #15 for your reference which was provided to me via FOIA Request # 001446. Thank you for your time.

Kind regards,

John Clark

Good Morning Everyone

Using the attached Responsive documents provided by Xavier I have gone ahead and proposed Exemption 6 redactions

Upon review if you need me to revise any of the email redactions please let me know

Furthermore although the Filenames for some of the Attachments were NOT the same once combined the documents seemed identical I left them "as is "

Thank you

I have gone ahead and taken a preliminary download of the files and you are correct -this was a far better pull These were the results I came up with:

Keefe Murray - Pull 1: 3 Pages - 3 Pages of Attachments
Mike Strobel - Pull 1: 1 294 Pages - **30 Attachments**
Nancy OConnell - Pull 1: 57 Pages - **13 Attachments**

Mike Strobel - Pull 2: 164 Pages - **37 Attachments**
Nancy OConnell - Pull 2: 769 Pages - **152 Attachments**

So looking forward these Attachments need to be converted to Page Counts then I will share the entire pull with R1 for them to prepare a Fee Package

Good afternoon,

I have a few questions:
How do we know which documents to review? Are they split between us in some way?
Is proposing a redaction the same as redacting? We weren't told about proposing redactions in our previous training session.

Dan,

Just got off a meeting with Hyacinth, Travis, and Jeremy We have a way forward

- 1) I recommend that we redo the search and then look at the results and make sure they're within the scope of the dates that we requested I'm also going to speak with the requester and try to get his permission to remove the attorney's name from the search because that should result in eliminating a lot of non-responsive material
- 2) I don't know if it's systemic or if it's just this instance It appears it was an IT problem, but there is no way to verify because of the systems in place with eDiscovery There are some issues and solutions around eDiscovery that we would like to discuss with you at our Tuesday meeting next week
- 3) The regional relationship is strong and we can recover as long as we make sure that we have some good work product to give them in the future We are going to get through some low hanging fruit like lease amendments and OAs to make headway with the requester and also get the SMEs doing useful redacting while we've got our team assembled

Best,
Cassie

Including Duane and Hyacinth as Travis is on leave the remainder of the week

- 1) What exactly do we need to do to fix this particular matter? You recommend that the team "re-scrub" the files given what we saw in the first folder Is doing another (better) search an option? Can't we search by date range (that seems to be the biggest problem identified so far)? And if we do run another search, we should do some due diligence beforehand to determine if the previous search yielded any other extraneous documents We need to move on this ASAP because we're now even more behind
- 2) Next issue would be whether we have a more systemic problem here How did we send folks a folder where at least 86% of the documents were non-responsive? Is it a system/IT problem or is it a human mistake? As we put pressure on the SMEs and regional attorneys to pull their weight, we need to be extremely careful that we are giving them the tools they need and aren't wasting their time It looks like here, even though the documents were outside of the date range, the reviewer still went to the trouble of making a chart That's a big time suck
- 3) Finally, let me know if I need to do any outreach to the region to explain what happened Again, mistakes happen At the same time, it hurts our credibility if we are missing the mark at an 86% rate, even if it only happened one time

Thanks Let me know how I can help get this resolved

Dan,

We have an issue with the pull in one of our FOIA requests, FOIA 1104 R1 is unwilling to move forward in processing this FOIA unless we do a re-pull of the two date periods based on the discrepancies in the O'Connell file Of the O'Connell emails, of approximately 157 emails, 135 were outside of the requester's date periods (2/1/2019 to 7/31/2019 and 12/1/2020 through 5/31/2021) I have attached his spreadsheet for your review I understand that this is going to be frustrating for the analysts who will need to "re-scrub" the files, but given the amount of non-responsive material located in the review of just one folder, I recommend that it be done and that we review the results upon receipt

Attached hereto, please find the O'Connell section of the 2021-001104 and an Excel spreadsheet indicating a review of the O'Connell section. The purpose was to define the world of the request using the two periods of time by the requester: 2/1/2019 through 7/31/2019 and 12/1/2020 through 5/31/2021. Of 157 pages, approximately 135 pages are outside of the review period. I do need to apply redactions and citations to the email and attachments that qualify within the time periods.

- 1) I recommend that we redo the search and then look at the results and make sure they're within the scope of the dates that we requested. I'm also going to speak with the requester and try to get his permission to remove the attorney's name from the search because that should result in eliminating a lot of non-responsive material.
- 2) I don't know if it's systemic or if it's just this instance. It appears it was an IT problem, but there is no way to verify because of the systems in place with eDiscovery. There are some issues and solutions around eDiscovery that we would like to discuss with you at our Tuesday meeting next week.
- 3) The regional relationship is strong and we can recover as long as we make sure that we have some good work product to give them in the future. We are going to get through some low hanging fruit like lease amendments and OAs to make headway with the requester and also get the SMEs doing useful redacting while we've got our team assembled.

Best,
Cassie

- 1) What exactly do we need to do to fix this particular matter? You recommend that the team "re-scrub" the files given what we saw in the first folder. Is doing another (better) search an option? Can't we search by date range (that seems to be the biggest problem identified so far)? And if we do run another search, we should do some due diligence beforehand to determine if the previous search yielded any other extraneous documents. We need to move on this ASAP because we're now even more behind.
- 2) Next issue would be whether we have a more systemic problem here. How did we send folks a folder where at least 86% of the documents were non-responsive? Is it a system/IT problem or is it a human mistake? As we put pressure on the SMEs and regional attorneys to pull their weight, we need to be extremely careful that we are giving them the tools they need and aren't wasting their time. It looks like here, even though the documents were outside of the date range, the reviewer still went to the trouble of making a chart. That's a big time suck.
- 3) Finally, let me know if I need to do any outreach to the region to explain what happened. Again, mistakes happen. At the same time, it hurts our credibility if we are missing the mark at an 86% rate, even if it only happened one time.

Thanks. Let me know how I can help get this resolved.

Dan,

We have an issue with the pull in one of our FOIA requests, FOIA 1104. R1 is unwilling to move forward in processing this FOIA unless we do a re-pull of the two date periods based on the discrepancies in the O'Connell file. Of the O'Connell emails, of approximately 157 emails, 135 were outside of the requester's date periods (2/1/2019 to 7/31/2019 and 12/1/2020 through 5/31/2021). I have attached his spreadsheet for your review. I understand that this is going to be frustrating for the analysts who will need to "re-scrub" the files, but given the amount of non-responsive material located in the review of just one folder, I recommend that it be done and that we review the results upon receipt.

Best,
Cassie

Including Duane and Hyacinth as Travis is on leave the remainder of the week

- 1) What exactly do we need to do to fix this particular matter? You recommend that the team "re-scrub" the files given what we saw in the first folder Is doing another (better) search an option? Can't we search by date range (that seems to be the biggest problem identified so far)? And if we do run another search, we should do some due diligence beforehand to determine if the previous search yielded any other extraneous documents We need to move on this ASAP because we're now even more behind
- 2) Next issue would be whether we have a more systemic problem here How did we send folks a folder where at least 86% of the documents were non-responsive? Is it a system/IT problem or is it a human mistake? As we put pressure on the SMEs and regional attorneys to pull their weight, we need to be extremely careful that we are giving them the tools they need and aren't wasting their time It looks like here, even though the documents were outside of the date range, the reviewer still went to the trouble of making a chart That's a big time suck
- 3) Finally, let me know if I need to do any outreach to the region to explain what happened Again, mistakes happen At the same time, it hurts our credibility if we are missing the mark at an 86% rate, even if it only happened one time

Thanks Let me know how I can help get this resolved

Dan,

We have an issue with the pull in one of our FOIA requests, FOIA 1104 R1 is unwilling to move forward in processing this FOIA unless we do a re-pull of the two date periods based on the discrepancies in the O'Connell file Of the O'Connell emails, of approximately 157 emails, 135 were outside of the requester's date periods (2/1/2019 to 7/31/2019 and 12/1/2020 through 5/31/2021) I have attached his spreadsheet for your review I understand that this is going to be frustrating for the analysts who will need to "re-scrub" the files, but given the amount of non-responsive material located in the review of just one folder, I recommend that it be done and that we review the results upon receipt

Best,
Cassie

mike.strobel@gsa.gov has invited you to **contribute to** the following shared folder:

Attached hereto, please find the O'Connell section of the 2021-001104 and an Excel spreadsheet indicating a review of the O'Connell section. The purpose was to define the world of the request using the two periods of time by the requester: 2/1/2019 through 7/31/2019 and 12/1/2020 through 5/31/2021. Of 157 pages, approximately 135 pages are outside of the review period.

I do need to apply redactions and citations to the email and attachments that qualify within the time periods.

Good evening Hyacinth,

Contacting you regarding the GSA FOIA request # in the subject line and the status of the refund for the prior payment I had made per my recent conversation with Cassie. If you require any information from me to assist in processing that refund please let me know.

Also requesting an update on the below FOIA request #'s. I have not received any communication on these (2) FOIA requests from July and August since receipt of the acknowledgement letters (attached).

Request dated 7/29/21: FOIA - GSA-2021-001409

Request dated 8/5/21: FOIA - GSA-2021-001446

Thank you for your time and assistance.

I told Mr. Clark that the search retrieved bad results, i.e., that it brought back information outside the requested dates, and that we were going to run another search. I told him that this would require more time to run. We agreed that I would provide regular updates to him on the processing of his request. He is expecting a release within 30-45 days. He may be expecting the full release within 30-45 days, but depending on the amount of information in the pull and R1's abilities to process, that may not be possible. Nevertheless, we will try to get him as much as possible by that time.

Good evening Hyacinth,

Contacting you regarding the GSA FOIA request # in the subject line and the status of the refund for the prior payment I had made per my recent conversation with Cassie. If you require any information from me to assist in processing that refund, please let me know.

Also requesting an update on the below FOIA request #'s. I have not received any communication on these (2) FOIA requests from July and August since receipt of the acknowledgement letters (attached).

Request dated 7/29/21: FOIA - GSA-2021-001409

Request dated 8/5/21: FOIA - GSA-2021-001446

Re: GSA FOIA 2021-001104 - Clark

Thank you for your time and assistance.

Hi Hyacinth,

Oh, yes, this is much more manageable. I think this will better narrow in on what he is looking for. Depending on what the R1 SMEs got back to you with, you may prep this one up for me and I will share with Duane Smith prior to routing to GSA IT to run the pull.

Thanks again for your help resetting this one.

This is in reference to your GSA Freedom of Information Act Request: GSA-2021-001104 , in which you requested the following:

"Please see attached FOIA Request dated 5/25/21 "

After careful review of your request, we have determined that your request is too broad in scope and does not specifically identify the records which you are seeking The parameter of your request is broad to the point that any search conducted using them may result in thousands of potentially responsive documents

Re: GSA FOIA 2021-001104- Request for Clarification (Data Pull Needed)

The Freedom of Information Act (FOIA) provides authority to Federal Agencies to release documents that are specifically identified by the requester. It does not require an Agency to do an all-encompassing search of all records in order to respond to requests, create new records, answer questions posed by requesters, or attempt to interpret a request that does not identify records.

The Office managing your FOIA needs additional information in order to proceed with your FOIA. Please describe the record you are seeking with as much information as possible to ensure that our search can locate them with a reasonable amount of effort. Whenever possible, a request should include specific information about each records sought, such as the date, title or name, author, recipients, and subject matter of the records, if you know, or the GSA component or office you believe created and/or controls the record.

The below Template should assist you in submitting the Data Pull that is required for your FOIA Request; please be as specific and as narrow as possible, keeping in mind that GSA is a centralized federal government agency:

- 1 Keywords: This would be the name of the Individual/Title / Subject we are Searching-
i.e. First Name, Last name, Title, Subject
- 2 GSA component or office you believe created and/or controls the record
i.e. Office of Congressional and Intergovernmental Affairs (OCIA)
- 3 Timeframe: Insert specific Date Range (from & to)
- 4 Mailboxes: Insert specific mailbox addresses (include "@" symbol). These are the Mailboxes that the Information will be searched & retrieved
i.e. First Name Last Name@Company/Govt Email Address

Please resubmit your request containing a reasonable description of the records you are seeking. Upon receipt of a perfected request, you will be advised as to the status of your request.

Additionally, there may be FOIA Fees to search and review the information retrieved from your email data pull request since email data pulls will oftentimes retrieve thousands of pages. We will have more information for you once the data pull has been conducted.

If we do not receive an amended request from you within 10 business days from the date of this letter (June 22, 2021), we will assume you are no longer interested in the FOIA request and will consider your request withdrawn. Please be advised that this action is not a denial of your request and will not preclude you from filing other request in the future.

Please be advised, our Office is available to discuss this FOIA request with you in more detail. Should you need to contact our office again about this matter, please reach us at our Toll Free number (855)-675-3642 and kindly reference **FOIA Request number GSA-2021-001104** you respond.

If you have any questions, please contact Mr. Travis Lewis, FOIA Program Manager, at (202) 219-3078 or by email at travis.lewis@gsa.gov. You may also contact the GSA FOIA Public Liaison, Duane Smith, at (202) 694-2934 or by email at duane.smith@gsa.gov for any additional assistance and to discuss any aspect of your FOIA request.

Thank you in advance for your assistance.

Not sure why he's asking thus (probably preparing an Appeal) - he communicated with Travis several times on this FOIA after having reviewed the Final Disposition

Hi Seth,

Hyacinth and I are working closely with Region 1 on this one. Latest we heard (and as of this morning) is the Region 1 OGC is reviewing for legal concurrence prior to final release. It shouldn't be much longer. The Region 1 SME has completed their proposed redactions. We are hoping to get a more detailed update from Region 1 today before quoting an ETA for Mr. Clark.

Hello Mike,

Thank you for your follow up on this FOIA request and the related e-discovery results I have read through your feedback and questions, both from your Friday afternoon email to Hyacinth and the one today for Duane and I I'm glad to assist you here and will try to answer all of your questions as best I can Please let me know if I missed anything, or if we need to jump on a call sometime tomorrow, that will be fine with me

As for the total page numbers of emails, yes, there are 157 email pages in the Nancy O'connell file and 217 email pages in the Mike Strobel file If you recall - after we did the first email pull that brought back Gig's and Gigs of information (well over 10,000 total email pages), we worked to narrow the scope further and did a re-pull with GSA IT This newly revised pull brought back much fewer pages and appears to be much more on the topic to which the requester is actually looking for

As for the questions you referred over to Meaghan, as for OGC communications and attorney/client communications The general answer on these two questions you have regarding email conversations with attorneys - is that it depends on the content of the emails and what is being discussed as to whether or not these communications are protected However, in general, if and when you are asking an attorney for advice or counsel or their legal opinion, your emails and the attorney responses and suggestions can all be withheld under b(5) as attorney/client privilege However, we will need to evaluate each conversation to determine these specific answers to your questions below:

- 1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
- 2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

For the emails that appear to be redundant emails - these are email chains - so if someone responds/forwards and in some cases Cc's additional folks, on an email you will see this new email chain and as an official new record It is not an electronic glitch - just a bi-product of the e-discovery process In this case we can evaluate each of the email chains and just keep the most recent or most expansive email chains for the responsive production for the FOIA request

For the emails about working on or processing the FOIA request and the subsequent emails around the ediscovery pull - all of these emails are not responsive and can be removed from the FOIA request responsive documents production

For your question regarding the attachments - The attachments are within the PDF files This can be a little confusing as you start out in the PDF files I am going to try to explain it in an email - but will be glad to walk you through it tomorrow on a video call if needed

As you open the PDF file, you will see the normal view as follows:

As you view this page, on the far left of the page - you will see a paperclip icon next to the small page tabs If you click this paperclip icon you will see the attachments fill in on the left side of the page (the files will be in their native format)

Once the paper clip is clicked on, the screen will look like below, and you will be able to access the attachments:

At that point they can be evaluated and we can save the ones that are responsive to the FOIA request. If there are files that are not responsive or duplicative, we can eventually delete those from the FOIA response production.

I hope that my response here has been helpful and again, I will be glad to chat with you tomorrow if needed.

Thanks, Travis

I have cursorily reviewed the two eDiscovery pulls for FOIA 2021-01104: One to me and one to Nancy O'Connell

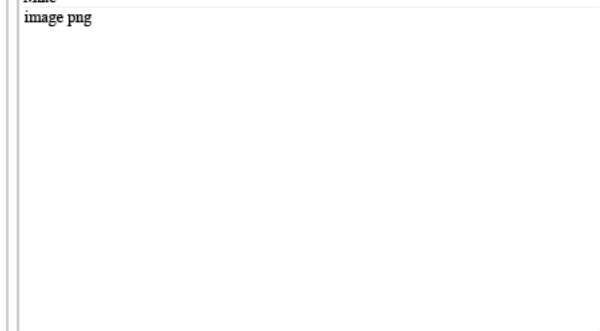

The information appears incomplete for review. For example, the review directed to me has multiple pages in repetition. Please see the email below. Additionally, I am unable to find attachments in these collections. Where the reviewed email states 'please see the attachment', I am not able to find them as configured.
Any thoughts?

Hyacinth
I am finding only 217 pages here. I thought the number of pages were higher. Before I can provide a cost estimate for the FOIA response I have given a quick and dirty scan of the document and have had to refer questions to Meaghan LeClerc as Counsel:
1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

Additionally, there are multiple redundancies: Page 8 is the same as page 59 and 105. There are entire sections that are repetitive. Is this an electronic glitch? There are redundant email communications between you and Travis and Duane as well. How are these to be handled?
Lastly, there are email communications about other FOIA's. Are these releasable?

I will not be available from 8/5 through 8/20 as I am getting my darling daughter off to college. Will need to take this into consideration in the response to the requester.

Hello Patty/Mike,

Please see the shared folder below identifying the new scoped out results of the Clark FOIA. Travis and I worked with Meaghan LeClerc over the past few days to gather the parameters.

Between the two folders, there is a total of 374 pages. Kindly scan them and prepare the Fee Package for Mr. Clark as he is expecting this.

Should you have any questions, please reach out to me tomorrow.
Thank you both.

There are approximately 146 attachments to the email to me and approximately 411 attachments (not pages) to Nancy O'Connell's email. Some of the attachments are Zip files.
There are **thousands** of pages to review just to provide an estimate to the requester.

Hello Mike,

Thank you for your follow up on this FOIA request and the related e-discovery results. I have read through your feedback and questions, both from your Friday afternoon email to Hyacinth and the one today for Duane and I. I'm glad to assist you here and will try to answer all of your questions as best I can. Please let me know if I missed anything, or if we need to jump on a call sometime tomorrow, that will be fine with me.

As for the total page numbers of emails, yes, there are 157 email pages in the Nancy O'Connell file and 217 email pages in the Mike Strobel file. If you recall - after we did the first email pull that brought back Gig's and Gigs of information (well over 10,000 total email pages), we worked to narrow the scope further and did a re-pull with GSA IT. This newly revised pull brought back much fewer pages and appears to be much more on the topic to which the requester is actually looking for.

As for the questions you referred over to Meaghan, as for OGC communications and attorney/client communications. The general answer on these two questions you have regarding email conversations with attorneys - is that it depends on the content of the emails and what is being discussed as to whether or not these communications are protected. However, in general, if and when you are asking an attorney for advice or counsel or their legal opinion, your emails and the attorney responses and suggestions can all be withheld under b(5) as attorney/client privilege. However, we will need to evaluate each conversation to determine these specific answers to your questions below:

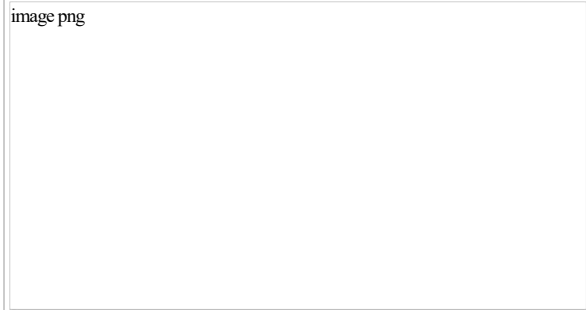

- 1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
- 2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

For the emails that appear to be redundant emails - these are email chains - so if someone responds/forwards and in some cases Cc's additional folks, on an email you will see this new email chain and as an official new record. It is not an electronic glitch - just a bi-product of the e-discovery process. In this case we can evaluate each of the email chains and just keep the most recent or most expansive email chains for the responsive production for the FOIA request.

For the emails about working on or processing the FOIA request and the subsequent emails around the ediscovery pull - all of these emails are not responsive and can be removed from the FOIA request responsive documents production.

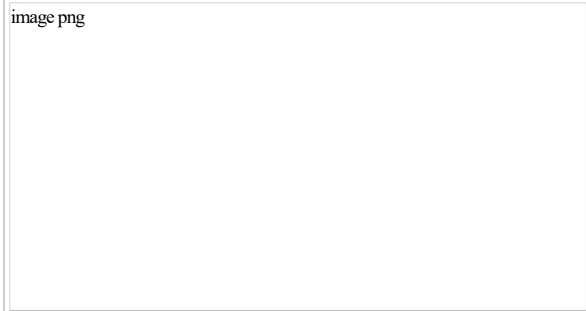

For your question regarding the attachments - The attachments are within the PDF files. This can be a little confusing as you start out in the PDF files. I am going to try to explain it in an email - but will be glad to walk you through it tomorrow on a video call if needed.

As you open the PDF file, you will see the normal view as follows:

As you view this page, on the far left of the page - you will see a paperclip icon next to the small page tabs. If you click this paperclip icon you will see the attachments fill in on the left side of the page (the files will be in their native format).

Once the paper clip is clicked on, the screen will look like below, and you will be able to access the attachments:

At that point they can be evaluated and we can save the ones that are responsive to the FOIA request. If there are files that are not responsive or duplicative, we can eventually delete those from the FOIA response production.

I hope that my response here has been helpful and again, I will be glad to chat with you tomorrow if needed.

Thanks, Travis

Hyacinth
I am finding only 217 pages here. I thought the number of pages were higher. Before I can provide a cost estimate for the FOIA response I have given a quick and dirty scan of the document and have had to refer questions to Meaghan LeClerc as Counsel:
1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

Additionally, there are multiple redundancies: Page 8 is the same as page 59 and 105. There are entire sections that are repetitive. Is this an electronic glitch?
There are redundant email communications between you and Travis and Duane as well. How are these to be handled?
Lastly, there are email communications about other FOIA's. Are these releasable?

I will not be available from 8/5 through 8/20 as I am getting my darling daughter off to college. Will need to take this into consideration in the response to the requester.

There are approximately 146 attachments to the email to me and approximately 411 attachments (not pages) to Nancy O'Connell's email Some of the attachments are Zip files
There are **thousands** of pages to review just to provide an estimate to the requester

Hello Mike,

Thank you for your follow up on this FOIA request and the related e-discovery results I have read through your feedback and questions, both from your Friday afternoon email to Hyacinth and the one today for Duane and I I'm glad to assist you here and will try to answer all of your questions as best I can Please let me know if I missed anything, or if we need to jump on a call sometime tomorrow, that will be fine with me

As for the total page numbers of emails, yes, there are 157 email pages in the Nancy O'connell file and 217 email pages in the Mike Strobel file If you recall - after we did the first email pull that brought back Gig's and Gigs of information (well over 10,000 total email pages), we worked to narrow the scope further and did a re-pull with GSA IT This newly revised pull brought back much fewer pages and appears to be much more on the topic to which the requester is actually looking for

As for the questions you referred over to Meaghan, as for OGC communications and attorney/client communications The general answer on these two questions you have regarding email conversations with attorneys - is that it depends on the content of the emails and what is being discussed as to whether or not these communications are protected However, in general, if and when you are asking an attorney for advice or counsel or their legal opinion, your emails and the attorney responses and suggestions can all be withheld under b(5) as attorney/client privilege However, we will need to evaluate each conversation to determine these specific answers to your questions below:

- 1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
- 2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

For the emails that appear to be redundant emails - these are email chains - so if someone responds/forwards and in some cases Cc's additional folks, on an email you will see this new email chain and as an official new record. It is not an electronic glitch - just a bi-product of the e-discovery process. In this case we can evaluate each of the email chains and just keep the most recent or most expansive email chains for the responsive production for the FOIA request.

For the emails about working on or processing the FOIA request and the subsequent emails around the ediscovery pull - all of these emails are not responsive and can be removed from the FOIA request responsive documents production.

For your question regarding the attachments - The attachments are within the PDF files. This can be a little confusing as you start out in the PDF files. I am going to try to explain it in an email - but will be glad to walk you through it tomorrow on a video call if needed.

As you open the PDF file, you will see the normal view as follows:

As you view this page, on the far left of the page - you will see a paperclip icon next to the small page tabs. If you click this paperclip icon you will see the attachments fill in on the left side of the page (the files will be in their native format).

Once the paper clip is clicked on, the screen will look like below, and you will be able to access the attachments:

At that point they can be evaluated and we can save the ones that are responsive to the FOIA request. If there are files that are not responsive or duplicative, we can eventually delete those from the FOIA response production.

I hope that my response here has been helpful and again, I will be glad to chat with you tomorrow if needed.

Thanks, Travis

I have cursorily reviewed the two eDiscovery pulls for FOIA 2021-01104: One to me and one to Nancy O'Connell
[2021-001104 Nancy Oconnell.pdf](#)

The information appears incomplete for review. For example, the review directed to me has multiple pages in repetition. Please see the email below. Additionally, I am unable to find attachments in these collections. Where the reviewed email states 'please see the attachment', I am not able to find them as configured.
Any thoughts?

Hyacinth
I am finding only 217 pages here. I thought the number of pages were higher. Before I can provide a cost estimate for the FOIA response

I have given a quick and dirty scan of the document and have had to refer questions to Meaghan LeClerc as Counsel:
1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

Additionally, there are multiple redundancies: Page 8 is the same as page 59 and 105 There are entire sections that are repetitive Is this an electronic glitch?
There are redundant email communications between you and Travis and Duane as well How are these to be handled?
Lastly, there are email communications about other FOIA's Are these releasable?

I will not be available from 8/5 through 8/20 as I am getting my darling daughter off to college Will need to take this into consideration in the response to the requester

Please see the shared folder below identifying the new scoped out results of the Clark FOIA. Travis and I worked with Meaghan LeClerc over the past few days to gather the parameters.

Between the two folders, there is a total of 374 pages. Kindly scan them and prepare the Fee Package for Mr. Clark as he is expecting this.

Should you have any questions, please reach out to me tomorrow.

I am finding only 217 pages here I thought the number of pages were higher Before I can provide a cost estimate for the FOIA response I have given a quick and dirty scan of the document and have had to refer questions to Meaghan LeClerc as Counsel:
1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

Additionally, there are multiple redundancies: Page 8 is the same as page 59 and 105 There are entire sections that are repetitive Is this an electronic glitch?
There are redundant email communications between you and Travis and Duane as well How are these to be handled?
Lastly, there are email communications about other FOIA's Are these releasable?

I will not be available from 8/5 through 8/20 as I am getting my darling daughter off to college Will need to take this into consideration in the response to the requester

Hello Patty/Mike,

Please see the shared folder below identifying the new scoped out results of the Clark FOIA. Travis and I worked with Meaghan LeClerc over the past few days to gather the parameters.

Between the two folders, there is a total of 374 pages. Kindly scan them and prepare the Fee Package for Mr. Clark as he is expecting this.

Should you have any questions, please reach out to me tomorrow.
Thank you both.

Good morning Travis,

Thank you for sharing your feedback with me

Before I logged off on Friday, I did speak with Mike regarding several of his Co cwns except the Attachments (this one appears to be new)

If you haven't already scheduled one, and since Meaghan, and Patty will eventually be involved, may be best to loop them in on any meetings to keep the communication consistent among R1 folks and to Squash all the concerns going forward

Just a thought

Thank you again and I'll be available periodically today as I have 2 tours scheduled starting at 11am

Take care

There are approximately 146 attachments to the email to me and approximately 411 attachments (not pages) to Nancy O'Connell's email Some of the attachments are Zip files
There are thousands of pages to review just to provide an estimate to the requester

Hello Mike,

Thank you for your follow up on this FOIA request and the related e-discovery results I have read through your feedback and questions, both from your Friday afternoon email to Hyacinth and the one today for Duane and I I'm glad to assist you here and will try to answer all of your questions as best I can Please let me know if I missed anything, or if we need to jump on a call sometime tomorrow, that will be fine with me

As for the total page numbers of emails, yes, there are 157 email pages in the Nancy O'Connell file and 217 email pages in the Mike Strobel file If you recall - after we did the first email pull that brought back Gig's and Gigs of information (well over 10,000 total email pages), we worked to narrow the scope further and did a re-pull with GSA IT This newly revised pull brought back much fewer pages and appears to be much more on the topic to which the requester is actually looking for

As for the questions you referred over to Meaghan, as for OGC communications and attorney/client communications The general answer on these two questions you have regarding email conversations with attorneys - is that it depends on the content of the emails and what is being discussed as to whether or not these communications are protected However, in general, if and when you are asking an attorney for advice or counsel or their legal opinion, your emails and the attorney responses and suggestions can all be withheld under b(5) as attorney/client privilege However, we will need to evaluate each conversation to determine these specific answers to your questions below:

- 1 Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
- 2 Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

For the emails that appear to be redundant emails - these are email chains - so if someone responds/forwards and in some cases Cc's additional folks, on an email you will see this new email chain and as an official new record It is not an electronic glitch - just a bi-product of the e-discovery process In this case we can evaluate each of the email chains and just keep the most recent or most expansive email chains for the responsive production for the FOIA request

For the emails about working on or processing the FOIA request and the subsequent emails around the ediscovery pull - all of these emails are not responsive and can be removed from the FOIA request responsive documents production

For your question regarding the attachments - The attachments are within the PDF files This can be a little confusing as you start out in the PDF files I

am going to try to explain it in an email - but will be glad to walk you through it tomorrow on a video call if needed

As you open the PDF file, you will see the normal view as follows:

image png

As you view this page, on the far left of the page - you will see a paperclip icon next to the small page tabs. If you click this paperclip icon you will see the attachments fill in on the left side of the page (the files will be in their native format)

Once the paper clip is clicked on, the screen will look like below, and you will be able to access the attachments:

image png

At that point they can be evaluated and we can save the ones that are responsive to the FOIA request. If there are files that are not responsive or duplicative, we can eventually delete those from the FOIA response production.

I hope that my response here has been helpful and again, I will be glad to chat with you tomorrow if needed.

Thanks, Travis

I am finding only 217 pages here. I thought the number of pages were higher. Before I can provide a cost estimate for the FOIA response

I have given a quick and dirty scan of the document and have had to refer questions to Meaghan LeClerc as Counsel:

1. Under FOIA are communications between Counsel and the regional responder protected? With Meaghan and/or Nancy O'Connell? Both?
2. Are emails between me (as responder to the request) and Counsel protected because they are pre-decisional communications that ultimately provided the final releasable document?

Good morning,

Hyacinth - thank you very much for your time earlier today discussing my FOIA Request #: GSA-2021-001104. It was a very productive conversation and I appreciate your time and the clarifications you provided.

As a follow up, I require adjustments to the overall timeline of my search criteria. As we discussed Hyacinth, the timeline of the current data pull reflects the period between 7/10/19 - 7/31/21. However, this timeline is problematic as the records I am seeking also pre-date the signing of a particular GSA Lease document (Lease Amendment No. 14) which was executed on 7/10/19.

As a result, my requested adjustment for the narrowed keyword criteria/data pull timeline is the following:

2/1/19 - 7/31/21

I understand the fee structure may change as part of this request. If you have any questions, please don't hesitate to contact me.

Kind regards,

John Clark

Good morning,

Hyacinth - thank you very much for your time earlier today discussing my FOIA Request #: GSA-2021-001104. It was a very productive conversation and I appreciate your time and the clarifications you provided.

As a follow up, I require adjustments to the overall timeline of my search criteria. As we discussed Hyacinth, the timeline of the current data pull reflects the period between 7/10/19 - 7/31/21. However, this timeline is problematic as the records I am seeking also pre-date the signing of a particular GSA Lease document (Lease Amendment No. 14) which was executed on 7/10/19.

As a result, my requested adjustment for the narrowed keyword criteria/data pull timeline is the following:

2/1/19 - 7/31/21

I understand the fee structure may change as part of this request. If you have any questions, please don't hesitate to contact me.

Kind regards,

Thank you for your response Hyacinth,

Regarding request # **2021-001104** I want to re-confirm with your office that the pending results to be delivered to me will strictly adhere to the 8/9/21 agreed-to parameters spelled out in the respective Fee Letter attached

Additionally, FOIA response to my request # **2021-001656** was incomplete and I submitted an appeal outlining the missing information Do you happen to have an update on that request / status of my appeal?

Lastly, I'm seeking an update on request # **2021-001409** which dates back to 7 29 21 and further clarifications were provided to your office on 10 18 21 refining the search parameters Thank you for your time

Kind regards,

John Clark

Good afternoon Mr. Clark,

Yes, regarding request #2021-001104, the pending results were pulled using the latest criteria and parameters that were agreed upon between you and my FOIA Office via the telephone call discussing this e-discovery scope, which is also referenced in the fee assessment letter you attached here

I will follow-up on the latest status on FOIA appeal 2022-000112 (This is the appeal number for the appeal of original request 2021-001656)

For the third item on your status inquiry, we have received the results back from our IT office on this ediscovery pull (with the 10/18/2021 search parameters) for request # 2021-001409. We are performing our initial review and analysis on the results returned and we will be getting back with you soon regarding these pull results

Hi Patty

This is the new Task we have created in FOIAOnline since his payment cleared:

"Hello Patty,
Mr. Clark has remitted full payment.
Unique FOIA and due to the Volume, and the amount of times we went back to the "starting gate" with Mr. Clark (eDiscovery Pull & Parameters), the new Due Date for R1's 1st Interim Release will be **nlt October 5th**. R1 must have all for this 1st Interim Release documentation, including LD1 Concurrence uploaded nlt this date. Please work closely with Meaghan and Mike to make this happen, and please keep me posted in the event any delays occur."

The previous Task was removed to avoid any confusion
Hope this helps

Hi Hyacinth,

The results as are are well over 100,000 With 5 of the 6 files in PDF format, there are 107,332 total email pages, not including attachments in this count

Looking at the email pull requirements, I would have never guessed that these three people had this much email conversation on this topic, but I guess they did

It may be worth a conversation with Region 1 to see if they expected this much conversation around this one lease Because, at this point, I would not know what guidance to provide the requester to narrow the scope We already provided him one opportunity to narrow the scope - and at face value looking at the pull it looked like he provided a very narrowed scope for this pull

However, maybe Region 1 can provide us some feedback for narrowing? Usually I can see a keyword or an item that may be causing the large pull results However, without further information I'm at a loss on why so many emails were returned in this case

Hi Hyacinth,

I'm still converting the last file. It has errored a couple times over the weekend. The other five files saved late last week. However, this pull is massive and has pulled back thousands of emails. I'm shocked that it returned this many emails. I will share what I have - but it will most definitely need to be narrowed down as it is really unmanageable as is.

Hi Travis

Hope your day is going well

Checking on this Clark pull - were there any results to be shared with Region 1 for preparing a Fee Package?

Please let me know and thank you

Hi Mike

When you have a moment please listen to the voicemail I left you and let me know your availability tomorrow to meet and discuss the subject FOIA

In a nutshell I met with Meaghan LeClerc earlier today - the Fee Package will need to be revised and resent this week  
I am currently going through the Attachments to incorporate them into the previous total page counts of 157 and 217 respectively

We can discuss this further tomorrow via phone - have a good evening and thank you for pulling all this together  
Much appreciated
